A SELECTED LIST OF BOOKS

¶ PUBLISHED DURING THE LATTER PART OF THE YEAR 1909, WHICH ARE RECOMMENDED BY THE ONTARIO LIBRARY ASSOCIATION FOR PURCHASE BY THE PUBLIC LIBRARIES OF THIS PROVINCE.

¶ THE BOOKS SELECTED HAVE BEEN CHOSEN TO MEET AS FAR AS POSSIBLE THE WANTS OF THE LIBRARIES FOR NEW BOOKS AT A MODERATE PRICE.

¶ THE NAMES OF THE PUBLISHERS AND THE RETAIL PRICES HAVE BEEN ADDED, SO THAT ANY BOOKSELLER CAN ORDER THEM.

In the selection of these books the smaller libraries have been constantly kept in view. The books listed in this bulletin are recent publications, most of them of the fall of 1909.

The Bibliography of Canadian Poetry (English) is an attempt to give a list of representative books in Canadian poetry that might well be on the shelves of all our public libraries. A few of these are out of print and hard to secure, but they may be ordered from a second-hand bookseller, who occasionally has opportunities of securing them.

The books have not been classified on any rigid scientific system (either Decimal or Cutter), but have been grouped so as to indicate in a general way their suitability to various classes of readers.

It is expected that the March bulletin will contain another bibliography of practical value.

SPECIAL : JUVENILE BIOGRAPHY.

- Nursesey, Walter R. "The Story of Isaac Brock." 2nd edition. 4th thousand. Illustrated by Canadian Artists Toronto, William Briggs, 1909, 85c. net
 The first volume of the "Canadian Heroes' Series," published under the auspices of the Ontario Library Association and recommended by the Inspector of Public Libraries. The story of Isaac Brock has been written by Mr. Nursesey for the boys and girls of Canada, and marks a distinct advance in the literature prepared for the young in this country. While historically true, it is full of dramatic incident and depicts the campaign of 1812 in graphic language. Glimpses of the stirring days when Canada was saved to the British Crown. Should be read by every boy and girl and adult in the Dominion. Highly commended by the O. L. A. and the press of Canada. Contains a colored portrait of Brock by Alyn Williams, and five tri-color full-page reproductions of original water-color sketches by C. W. Jefferys, O.S.A., C. M. Manly, A.R.C.A., and H. Carter, and in black and white by Fergus Kyle, and seventeen hitherto unpublished half-tones—printed in sepia—of places and objects of interest identified with General Brock's life and times—some of which are facsimiles of rare drawings now out of print, also a vignette portrait of the "Saviour of Upper Canada," by Hudson, and a silhouette of his aide, Lt.-Col. John Macdonell. An American edition of this book has been put on the market by the A. C. McClurg Co., of Chicago, and has been very favorably received by the United States press.

A Selected List of Books

PUBLISHED DURING THE LATTER PART OF THE YEAR 1909, AND THE EARLY PART OF 1910, WHICH ARE RECOMMENDED BY THE ONTARIO LIBRARY ASSOCIATION FOR PURCHASE BY THE PUBLIC LIBRARIES OF THIS PROVINCE.

In the selection of these books the smaller libraries have been constantly kept in view.

The classification in these Bulletins is not on any rigid scientific system (either Decimal or Cutter), but the books are grouped so as to indicate in a general way their suitability to various classes of readers.

The Bibliography of Canadian Fiction (English) is an attempt to give a list of representative books in Canadian fiction that might well be on the shelves of all our public libraries. A few of these are out of print and hard to secure, but they may be ordered from a second-hand bookseller, who occasionally has opportunities of securing them. The Editor would be glad to be notified of any errors or omissions in this or any of the bibliographies. Address, Editor Quarterly Bulletin, care Inspector of Public Libraries, Department of Education, Toronto.

It is expected that the September Bulletin will contain a brief bibliography of practical value, but the Bulletin will be devoted chiefly to a list of new titles.

A Selected List of Books

¶ PUBLISHED DURING THE YEAR 1910, WHICH ARE RECOMMENDED BY THE ONTARIO LIBRARY ASSOCIATION FOR PURCHASE BY THE PUBLIC LIBRARIES OF THIS PROVINCE.

In the selection of these books the smaller libraries have been constantly kept in view.

The classification in these Bulletins is not on any rigid scientific system (either Decimal or Cutter), but the books are grouped so as to indicate in a general way their suitability to various classes of readers.

The Bibliography of Agriculture is an attempt to give a list of representative books that might well be on the shelves of our public libraries. The Editor would be glad to be notified of any errors or omissions in this or any of the bibliographies or of any suggestions towards making the Bulletin more helpful to the Libraries. Address, Editor Quarterly Bulletin, care Inspector of Public Libraries, Department of Education, Toronto.

The next Bulletins will contain lists of juveniles and other Canadian bibliographies.

FICTION

- Allen, James Lane....."The Doctor's Christmas Eve".....Macmillan, \$1.25
 Story is laid in rural Kentucky, so well depicted in Mr. Allen's other books.
- Barbour, Ralph Henry....."The Golden Heart".....Lippincott, \$2.00
- Barclay, Florence L....."The Mistress of Shenstone".....Putnams, \$1.35, net
 Those who read Mrs. Barclay's novel, "The Rosary," will be interested in this opinion: "The tale ('The Mistress of Shenstone') is instinct with the same depth of feeling, glowing imagery, and refinement of literary art that characterize the author's earlier work."
- Barr, Amelia E....."A Reconstructed Marriage".....Dodd, Mead, \$1.25, net
- Barr, Robert "The Sword Maker".....McLeod & Allen, \$1.25
 A new story by this distinguished Canadian writer.
- Bell, Lillian "Angela's Quest".....Duffield, \$1.50

- Grenfell, Wilfred T. "Down to the Sea" Revell, \$1.00
 "Spontaneous, instructive, containing stories of some of the things seen and done, the men Dr. Grenfell has known, and the things they have done, as he has cruised along the Labrador Coast."—*New York Times*.
- Haggard, H. Rider "Morning Star" Longmans, \$1.50
 A romance of Ancient Egypt. "A really fine romance."—*London Times*.
- Haggard, H. Rider "Queen Sheba's Ring" Doubleday, Page, \$1.50
 A tale of North Central Africa, narrating the discovery of the Cave of the Kings and of the strange tribe of the Fung, ruled by a woman, and their idol. A fascinating story.
- Harben, Will N. "Dixie Hart" Harpers, \$1.50
 "Uncle Abner" was so good that this book, which is of the same type, ought to be popular. The exciting plot and the droll humor and the local coloring of Georgia blend very delightfully.
- Henry, O. "Whirligigs" Doubleday, Page, \$1.20, net
 "Let Me Feel Your Pulse" Doubleday, Page, 50c.
 The last stories of O. Henry, and said to be representative of his best work. Unquestionably a writer of power.
- Hewlett, Maurice "Rest Harrow" Scribners, \$1.50
 The "Senhouse" trilogy—Rest Harrow, a Comedy of Resolution; Halfway House, a Comedy of Degrees; and Open Country, a Comedy with a Sting—is a fine contribution to modern fiction. The *Outlook* says of "Rest Harrow": "A unique love-story in an out-of-door atmosphere as radiant as that of a Monet picture and as cool and fresh and vivifying as that which gives a soft mystery to the English landscape."
- Hope, Anthony "Second String" Doubleday, Page, \$1.50
 A picture of modern English life, with London and a country house for the setting.
- Hough, Emerson "The Purchase Price" Bobbs-Merrill, \$1.50
 Abounds in love and dramatic situations.
- Isham, Frederic S. "The Social Buccaneer" Bobbs-Merrill, \$1.50
 The hero is a brilliant young man who aims to relieve the rich of New York of their ill-gotten gains and to distribute the booty among the common people. Hence there is plenty of excitement in this story.
- James, Henry "The Finer Grain" Scribners, \$1.25, net
 Contains five of his later stories: "The Velvet Glove," "Mona Montravers," "A Round of Visits," "Crapy Corneila," "The Bench of Desolation."
- Jerome, Jerome K. "They and I" Musson, \$1.25
 The first long, complete novel by Mr. Jerome since the publication of "Three Men in a Boat."
- Johnston, Mary "The Long Roll" Briggs, \$1.50
 The author of "To Have and To Hold" captured the public so completely that every new novel of hers will be gladly received.
- Keith, Marian (Mrs. Esther McGregor). "Lizbeth of the Dale". Westminster Co., \$1.50
 Another Ontario story to delight the admirers of "Duncan Polite," "Silver Maple," and "Treasure Valley." The picture of rural Ontario is well done, the nature descriptions are beautiful, and the character study of Lizbeth is very carefully wrought out.

 A collection of eight bright stories.
- Kerby, George W. "The Broken Trail" Briggs, \$1.00
 Vivid impressions of experiences in the North-West.

 A novel picturing the "third degree" said to be practised by the police in some American cities.
- Knowles, Robert E. "The Handicap" Frowde, \$1.50
 A novel of Canadian pioneer days. A powerful story of struggle against environment and heredity. The most finished work that Knowles has produced. A credit to Canadian fiction.
- Laut, Agnes C. "Freebooters of the Wilderness" Moffatt, Yard, \$1.35, net
 A strong novel of the American Northwest of to-day. Miss Laut's researches into the records of the Canadian and American West have fitted her in a unique way to portray the early and modern periods of Western life. This story is a terrible indictment of graft and rascality on the part of officials and prominent citizens.

- Le Queux, William "Lying Lips" Copp, \$1.25
 Jim Almond, the easy-going, good-hearted Englishman, but head of a gang of international thieves, and his pretty daughter, Iris, are two main figures in this story of thrilling interest.
- Locke, W. J. "Simon the Jester" Henry Frowde, \$1.50
 Mr. Locke is in the front rank of the newer writers. His "Septimus" (John Lane, 1909) is masterly in its character drawing and is a moral tonic. Mr. Locke's books appeal especially to thoughtful men and women in their sane and profoundly moral view of life and duty. There is, moreover, a charm of style that is delightful. "Simon the Jester" reveals a knowledge of life and its motives that is most stimulating.
- London, Jack "When God Laughs" Macmillan, \$1.50
 Contains twelve stories "distinguished by Mr. London's customary strength and vividness of imagination."

 Four mystery stories: "The Guillotine Club," "The Fourteenth Guest," "The Mind-reader," "House Beyond Prettymarsh."
- Montgomery, Lucy M. "Kilmeny of the Orchard" Page, \$1.50
 A very delightful love story of Prince Edward Island, by the author of "Anne of Green Gables." Resembles somewhat "The Lilac Sunbonnet" in its freshness and out-of-doors love-making.
- Munn, Charles Clark "The Castle Builders" McClelland & Goodchild, \$1.50
- Munro, Neil "Fancy Farm" Blackwood, 6s.
- McClung, Mrs. Nellie L. "The Second Chance" Briggs, \$1.25

 Any story by George Barr McCutcheon is sure to be popular, and the Chicago *Inter-Ocean* refers to this story as Mr. McCutcheon's masterpiece.

 The first distinctively Indian story issued in Canada. Not a white man appears in the story.

Mr. McKishnie tells a good story, and has written a most interesting page of Canadian history.

SPECIAL JUVENILE BIOGRAPHY

Nurse, Walter R. "The Story of Isaac Brock." 2nd edition. 4th thousand. Illustrated by Canadian Artists Toronto, William Briggs, 1909, 85c. net

The first volume of the "Canadian Heroes' Series," published under the auspices of the Ontario Library Association and recommended by the late Inspector of Public Libraries. The story of Isaac Brock has been written by Mr. Nurse for the boys and girls of Canada, and marks a distinct advance in the literature prepared for the young in this country. Though primarily a book for juveniles it is equally suitable for adults. While historically true, it is full of dramatic incident and depicts the campaign of 1812 in graphic language. Glimpses of the stirring days when Canada was saved to the British Crown. Should be read by every boy and girl and adult in the Dominion. Highly commended by the O. L. A. and the press of Canada. Contains a colored portrait of Brock by Alyn Williams, and five tri-color full-page reproductions of original water-color sketches by O. W. Jefferys, O.S.A., C. M. Manly, A.R.O.A., and H. Carter, and in black and white by Fergus Kyle, and seventeen hitherto unpublished half-tones—printed in sepia—of places and objects of interest identified with General Brock's life and times—some of which are facsimiles of rare drawings now out of print. Also a vignette portrait of the "Saviour of Upper Canada," by Hudson, and a silhouette of his aide, Lt.-Col. John Macdonell. An American edition of this book has been put on the market by the A. C. McClurg Co., of Chicago, and has been very favorably received by the United States press.

STORY OF TECUMSEH.

Note:—There will be published early in 1911 the second volume of the Canadian Heroes Series—"The Story of Tecumseh," by Norman Gurd, B.C.L.; a companion book to the "Story of Isaac Brock."

THE NEXT BULLETIN.

It is expected that before the publication of the next Quarterly Bulletin arrangements will have been made—with the approval of the Minister of Education—for the inclusion of a few pages of selected paragraphs and contributed matter on library occurrences and other information for the benefit of library workers in Ontario.

DEPARTMENT OF EDUCATION

A Selected List of Books

11 RECOMMENDED BY THE ONTARIO LIBRARY ASSOCIATION FOR PURCHASE BY THE PUBLIC LIBRARIES OF THIS PROVINCE.

The following selections of Best Books of 1910 in various departments of literature have been made by experts in the various departments. The number of new books issued each year is becoming so enormous that no one man can keep pace with them. In fact, it is difficult even for the expert in one subject to keep abreast of all in his own department. Hence the value of asking representative men to select the books that in their judgment are the most valuable of the year for Public Library purposes. It is not claimed for these lists that they have no faults of omission or commission, but they are offered as suggestive guides to the books of 1910. The names of those who furnished the lists are given for each subject. In some cases the lists were, however, prepared after consultation with several persons.

The Decimal Classification has been used for the most part in this Bulletin. The Inspector of Public Libraries will send to any Public Library on application a pamphlet explaining this system.

The Editor would be glad to be notified of any errors or omissions in this or any of the Bulletins or of any suggestions towards making the Bulletin more helpful to the Libraries. Address, Editor Quarterly Bulletin, care Inspector of Public Libraries, Department of Education, Toronto.

The next Bulletin will contain a list of juveniles, and succeeding Bulletins will have other special features.

HINTS TO LIBRARIANS AND LIBRARY BOARDS

HOW TO USE THE QUARTERLY BULLETIN OF BEST BOOKS--A SUGGESTION TO THE LIBRARY BOARDS.

It is a general practice for the Public Library Board to appoint a Standing Committee of three to five members on the selection of books. Let this Book Committee organize with chairman and secretary, and have the secretary write the Inspector of Public Libraries for enough copies of the Quarterly Bulletin to provide each member with a copy. Then let each member of the Committee go carefully through his copy and check off the books he thinks should be recommended to the Board for purchase. Then when the Book Committee meets sufficient preliminary work has been done to make the discussions intelligent and informing, and the resulting list of recommendations will be a valuable one. Another advantage will be that the library will be kept somewhat balanced in its purchases and not grow unduly in one department at the expense of the others.

A FURTHER SUGGESTION.

Plans are being formulated to make the Quarterly Bulletin helpful to the libraries in every possible way. Your criticisms and suggestions will assist in this matter. If you find the Bulletin helpful, say so; and point out the particular features you wish to commend. If you see any way in which it could be improved, send your suggestions to the Editor at your earliest date, going into as full details as you can. The Bulletin is in the experimental state, but it has already demonstrated its value, and your suggestions may add greatly to its usefulness.

THE CHILD AND THE BOOK.

"After all, the greatest single benefit conferred upon a child by school education is his introduction to books. To learn to love books and to use books, the child must have a splendid and varied supply. For the average boy and girl this can be secured only through the school library. The reading habit formed at school is a source of ceaseless blessing throughout life."

THE LIBRARY AND PUBLIC APPRECIATION AND SUPPORT.

"Libraries are steadily advancing in public estimation. Wherever a public library exists it makes for the welfare and culture of the people. Free from political or religious bias, it appeals to, and is used by, all classes of the community. It attracts all sorts and conditions of children as no other institution can; and our responsibilities to them cannot be evaded. We ought to be able to commend the interest and support of all that is best in public life in this work, and public support will follow public appreciation. It is for this fuller measure of public appreciation and support we must appeal. If we pursue an enlightened policy, if our administration is public-spirited, progressive, open to ideas and touched with idealism, ultimate success is certain."

From *Library Work with Children*, by Mr. Harry Farr, Librarian of the Cardiff Public Library, Wales. (Read at the International Library Congress, Brussels, August, 1910.)

SPECIAL NOTICE

Nurse, Walter R. "The Story of Isaac Brock." 2nd edition. 4th thousand. Illustrated by Canadian Artists Toronto, William Briggs, 1909, 85c. net.

The first volume of the "Canadian Heroes' Series," published under the auspices of the Ontario Library Association. The story marks a distinct advance in the literature prepared for the young in this country. Though primarily a book for juveniles, it is equally suitable for adults. While historically true, it is full of dramatic incidents of the campaign of 1912. Highly commended by the press of Canada. Contains a colored portrait of Brock by Alyn Williams, and five tri-colour, full-page reproductions of original water-colour sketches by C. W. Jefferys, O.S.A., C. M. Manly, A.R.C.A., and H. Carter, and in black-and-white by Fergus Kyle, and seventeen hitherto unpublished half-tones—printed in sepia—of places and objects of interest identified with General Brock's life and times—some of which are facsimiles of rare drawings now out of print. Also a vignette portrait of the "Saviour of Upper Canada," by Hudson, and a silhouette of his aide, Lt.-Col. John Macdonell. An American edition of this book has been put on the market by the A. C. McClurg Co., of Chicago, and has been very favorably reviewed by the United States press.

"STORY OF TECUMSEH."

Note:—There is now in press and will be published early in 1911 the second volume of the Canadian Heroes Series—"The Story of Tecumseh," by Norman Gurd, B.C.L.; a companion book to the "Story of Isaac Brock."

The following Publications are issued by the Department of Education from the Office of the Inspector:

(1) "The Annual Report of the Inspector of Public Libraries." The report for 1910 just issued containing 116 pages includes 52 articles on a variety of subjects relevant to Library work in the Province.

Among the tabular statements are four showing the receipts and expenditures on maintenance, salaries and on books and newspapers, with the circulation of the former, the total membership, assets, liabilities, etc., of the Free and Association Libraries reporting, out of a total of 414, alphabetically arranged.

It contains 27 exterior and interior views of Library Buildings not previously published, with descriptions and histories of 16.

Chief of the special articles are those on "The Work of the Inspectors' Branch," "The Annual Story of the Libraries," "What the Department of Education has recently done for Library Extension in Ontario," "Directions for Library Officials when making up their Annual Reports," "Work of Inspection," "Proceedings of the Ontario Library Association, 1910," "Evolution of the Old Mechanics Institute since 1800 into Free and Association Libraries," "Branch Libraries," "Sunday Opening," "Library Institutes," etc. Also a chapter on "Classifying and Cataloguing"—including the report of the official cataloguer, Miss Spereman—"Travelling Libraries," "Study Clubs," "Library Summer School," "Quarterly list of Recommended Books," "The Public Library and Technical Education," "Mr. Carnegie's Donations," "Literary and Scientific Institutes," etc.

(2) "The Annual Proceedings of the Ontario Library Association for 1910." Compiled by the Secretary of the O. L. A., and published and distributed at the expense of the Department. A most valuable record of the work accomplished by the parent library organization. The edition is almost exhausted.

(3) A pamphlet showing exterior views and working plans of the Fergus Public Library, which met with the approval of the Carnegie Trust and obtained a donation of \$7,000. This has been printed by the Department for circulation among municipalities contemplating erecting a small library.

4. "The Public Libraries Act for 1909," with amendments, 1911, containing information indispensable in the establishing and conduct of all libraries. Letters are daily reaching the office of the Inspector, asking for the procedure to be followed by municipalities or communities desirous of establishing a public library. Those interested should carefully study the provisions of the Act and then apply to the Inspector for any special information.

(5) "Report of the Committee on Public Library Institutes, 1909-10."

(6) "Report of Special Committee on Technical Education in Public Libraries, 1910."

A few copies of these special pamphlets are still available.

(7) "Quarterly Bulletin of Recommended Books." Each number of these "Quarterly" publications, of which the latest issue is in your hands, contains between 400 and 500 titles of recent publications of all classes, recommended by a special committee of the O. L. A. The Bulletin is compiled and edited by Mr. E. A. Hardy, Secretary of the O. L. A., and published at the expense of the Department of Education. A close study of this issue demonstrates the fact that the Bulletin has assumed the importance that was promised and predicted for it. It is now the duty of every Book Selection Committee and Librarian to utilize it and preserve it as a permanent book of reference and a reliable guide in the periodical selection of books. As a cumulative index to current literature it meets the expressed wants of Library Boards and at no expense to the Library. As an indication of its value 600 extra copies have been applied for by the Superintendent of Education, Dr. Seath, for distribution among High and Continuation Schools. Librarians and Secretaries are invited by the Inspector to report as to the extent of the practical use this Quarterly has been to them in the selection of books.

NOTES.

Duplicate plans of all new Library buildings must now be filed with the Minister of Education before final adoption by the municipality interested.

Any Library that has received a Government grant and then closed its doors must at once report the circumstance to the Department and ask for instructions as to the disposal of its books.

Libraries or communities desiring a Free Travelling Library should write to the Inspector's Office for a printed form of application. See pages 527, 539, Inspector's Report, 1910.

Libraries in Towns in which industries are located can obtain a Travelling Library of *Technical Books* for the especial use of the resident artisans, after filing a list of its local Industries with the Department of Education.

Communities applying for Travelling Libraries are requested to report to the Inspector the number of their Blind residents, stating sex and age. The Minister of Education desires to utilize this auxillary method of assisting the needs of the sightless.

Tables showing the approximate cost of classifying the books in Libraries under the Dewey System and for installing a card system of Cataloguing will be mailed on application.

All departmental publications connected with Library work should be treated by the Library officials as valuable books of ready reference. They should be bound and placed where most easily accessible both by the officials and the public and should be thoroughly and frequently perused.

The Minister of Education has provided for the holding of a LIBRARY SCHOOL this summer in Toronto for the instruction of Librarians and others. Full particulars will be issued shortly. It would be well for those contemplating taking the course to notify the Inspector.

The new Rules and Regulations will be issued shortly.

If you are not a member of the Ontario Library Association you should have your name placed on the list at once. Every Library in the Province should affiliate. Annual Subscription, \$2.00. Individual Membership, \$1.00. Apply to the Secretary, 81 Collier Street, Toronto.

A Selected List of Books

FOR BOYS AND GIRLS.

RECOMMENDED BY THE ONTARIO LIBRARY ASSOCIATION FOR PURCHASE BY THE PUBLIC LIBRARIES OF THIS PROVINCE.

The following list of Books for Boys and Girls is intended as a supplement to the list prepared by a Committee of the Ontario Library Association and issued early in 1906. The Committee consisted of Mr. Norman S. Gurd, B.C.L., Sarnia; Miss Effie A. Schmidt, Berlin; and Miss Carrie A. Rowe, Brockville. They were instructed to select books suitable especially for Canadian libraries and, after a great deal of investigation, they issued an admirable list, which was distributed by the Department of Education to the public libraries of the Province. That list is now out of print. The present list is confined to books issued in the years 1906-1910, and is compiled from lists sent in by a large number of leading Canadian and American libraries, supplemented by suggestions from publishers and individuals. Every book in the list is recommended by one or more good authorities. The result is, therefore, not the selection of any one person, but a collection of the suggestions of many experts. The editor has also availed himself of similar recent American and British lists, and is indebted to these for valuable suggestions, especially in the matter of classification.

The Dewey Decimal Classification is used for the most part in these Bulletins. The Inspector of Public Libraries, Mr. W. R. Nursey, will send to any Public Library on application information respecting this system which is recommended by the Department of Education.

The Editor would be glad to be notified of any errors or omissions in this or any of the Bulletins or of any suggestions towards making the Bulletins more helpful to the Libraries. Address, Editor Quarterly Bulletin, care Inspector of Public Libraries, Department of Education, Toronto.

The next Bulletin will contain a list of books of first half of 1911, and succeeding Bulletins will have other special features.

A Selected List of Books

§ FROM THE LATE PUBLICATIONS OF 1910 AND EARLY PUBLICATIONS OF 1911.
BOOKS OF AUTUMN, 1911. NOTICES.

The Books in this list are suggested for the consideration of Library Boards rather than recommended, as in the other Bulletins of the year. The aim has been to call the attention of the Book Committees to the more noteworthy books, and to make a suggestive list from which selections can be made. The Editor would suggest that in cases of doubt as to the scope or character of a book, inquiry be made by the Book Committee. The Publisher will doubtless cheerfully answer any question, as every reputable publisher is desirous that his books reach the right purchaser, and it is quite evident that many books are not intended for the shelves of our smaller public libraries, *e.g.*, highly technical works, expensive books of biography of local interest, contentious works, "problem" novels, etc. The Inspector of Public Libraries, the Editor of the Bulletin, any of the officers of the Ontario Library Association, and the librarians of our larger libraries will also be pleased to give any assistance in their power in this matter of book selection.

The Editor would welcome any notice of errors or omissions in this or any of the Bulletins, or any suggestions towards making the Bulletin more helpful to the libraries. Address—The Editor, Quarterly Bulletin, care Inspector of Public Libraries, Department of Education, Toronto.

The Decimal Classification is the official classification of the Department of Education of Ontario and of the Ontario Library Association. The Inspector of Public Libraries will, on application, give all necessary information in respect to this system.

SPECIAL NOTICES.

- Gurd, Norman S."The Story of Tecumseh," illustrated from original paintings
 by C. W. Jefferys, A. M. Wickson, L. K. Smith, and Fergus Kyle...Briggs, \$1.00

Mr. Gurd's book on Tecumseh is the second volume of the Canadian Heroes Series, published under the auspices of the Ontario Library Association, and will make a splendid companion book to "Brock." It will be issued from the Briggs' press the second week of the new year, and will contain 24 chapters, a supplement, and over twenty illustrations. Four of these are in tri-color, "Tecumseh and Brock reconnoitering before crossing the river at Sandwich," "Tecumseh and Brock awaiting the flag of surrender at Fort Detroit," "The Battle on the Maumee," "The Death of Tecumseh at Moraviantown," and the "Attack on the flat-boats on the Ohio," in black and white. Mr. Gurd's book is written with much graphic force and literary skill, and apart from its value as an historical chronicle of the western peninsular Campaign of 1812-13 abounds in stirring episodes of frontier warfare, describing for the youths of Canada the heroic struggle of the Indians under the great Tecumseh—Britain's ally—and the pathetic death of the latter at the Battle of Moraviantown.

- Nurse, Walter R."The Story of Isaac Brock," 2nd ed., 4th thousand; illus-
 trated in color by C. W. Jefferys, C. M. Manly, H. Carter, Fergus Kyle...Briggs, 85c.

The Home University Library—Briggs, 25c. a volume—is a series of new books, specially written by high authorities in History, Art, Science, Letters, Social Science and Philosophy. The first issue contained 20 titles, and an announcement of more than 40 others. The Home University Library would admirably supplement Everyman's Library (25c. a volume), which is a reprint of standard works.

"The Makers of Canada" is issued by the United Editors, Ltd., as follows: Parkman Edition, 21 vols., \$56.00, cloth; \$80.00, half leather, 5 per cent. off for cash; University Edition, 11 vols., cloth, \$29.50; half leather, \$44.00 (net prices); full text and illustrations of Parkman Edition, and a large collection of valuable historical pictures. Prices given in O. L. A. List, Vol. IX., Part 3, are hereby corrected.

ONTARIO
DEPARTMENT OF EDUCATION

A Selected List of Books

¶ RECOMMENDED BY THE ONTARIO LIBRARY ASSOCIATION FOR PURCHASE BY THE PUBLIC LIBRARIES OF THIS PROVINCE.

The Editor takes great pleasure in sending on to the Public Libraries of Ontario the "Select Bibliography of Reference Books," by Miss Elizabeth Moir, of the Toronto Public Library Staff. Miss Moir's paper was presented at the 1911 meeting of the Ontario Library Association, and printed immediately after in the O. L. A. Proceedings, and is now revised and somewhat enlarged. This bibliography is a valuable contribution to our Canadian library literature, and should be in constant use in our libraries.

The list of the late Books of 1911 (Non-Fiction) prepared from publishers' announcements will, it is hoped, be of service in indicating some of the leading books of that period. As said in the introductory remarks of Vol. X, Part III, the Library Committee should satisfy itself by correspondence with the publisher in case of any books whose scope or character is not easily understood.

The Dewey Decimal Classification is used for the most part in these Bulletins. The Inspector of Public Libraries, Mr. W. R. Nursey, will send to any Public Library on application information respecting the system which is recommended by the Department of Education.

The Editor would be glad to be notified of any errors or omissions in this or any of the Bulletins or of any suggestions towards making the Bulletins more helpful to the Libraries. Address, Editor Quarterly Bulletin, care Inspector of Public Libraries, Department of Education, Toronto.

The next Bulletin will contain selections of the best books of 1911, prepared by a group of experts, and succeeding Bulletins will have other special features.

For additional copies of this, or any of the quarterly Bulletins, address the Inspector of Public Libraries.

DEPARTMENT OF EDUCATION

A Selected List of Books

RECOMMENDED BY THE ONTARIO LIBRARY ASSOCIATION FOR PURCHASE BY
THE PUBLIC LIBRARIES OF THIS PROVINCE.

According to *The Publishers' Weekly* of January 27, 1912, the book production of 1911 amounted in the United States to 11,223 titles and in Great Britain to 10,914. Of these 22,137 titles, 18,970 were new books and 3,167 were new editions. In many cases the same book was published in both countries (3,040 American titles being by foreign authors); but, allowing for these duplicates, and for new editions, it may be said that about 15,000 new books were published in Great Britain and the United States in 1911. These figures show how serious is the problem of book selection for any library, and especially for the smaller public library. From the report of the Inspector of Public Libraries for 1910, it would appear that approximately 25 public libraries in Ontario spend \$500 a year and upwards on books and periodicals; 200 spend from \$100 to \$200, and 200 spend less than \$100. These figures speak for themselves and emphasize most emphatically the need of the greatest care in assisting the Public Libraries to expend their funds wisely in the selection and purchase of books.

During the past ten years the Ontario Library Association has issued, through the courtesy of the Department of Education, an Annual List of Selected Books, in order to be of practical help in this matter. In 1910 the preparation of this List was placed in the hands of the present Committee of the Ontario Library Association, with instructions to issue quarterly. The following statement shows how far the Committee has been able to follow their instructions:

1910. Vol. IX.—1. Later Books of 1909 and a Short Bibliography of Canadian Poetry (English).
“ “ IX.—2. Books of 1909 and 1910 and a Short Bibliography of Canadian Fiction (English).
“ “ IX.—3. Later Books of 1910 and a Short Biography of Agricultural Books.

1911. Vol. X.—1. (a) Selections of Best Books of 1910, prepared by experts in various Departments. (b) Forthcoming Books of Spring, 1911. (c) Suggestive paragraphs on Library Methods.

“ “ X.—2. Books for Boys and Girls, published 1906-1910.

“ “ X.—3. (a) Books of Late 1910 and First Half of 1911. (b) Announcement of Fall Books (Fiction).

“ “ X.—4. (a) Select Bibliography of Books of Reference. (b) Announcements of Fall Books (Non-Fiction).

The present number (XI. 1) follows the plan of the corresponding number of 1911 (X. 1). Those specially qualified in their departments have assisted in preparing this Selection of the Best Books of 1911, gladly co-operating in this matter of helping the libraries of Ontario to make a wise selection from the books of the year.

The Editor would welcome any notice of errors or omissions in this or any of the Bulletins, or any suggestions towards making the Bulletin more helpful to the libraries. Address—The Editor—Quarterly Bulletin, care Inspector of Public Libraries, Department of Education, Toronto.

The Decimal Classification is the official classification of the Department of Education of Ontario and of the Ontario Library Association. The Inspector of Public Libraries will, on application, give all necessary information in respect of this system.

For additional copies of this, or other numbers of the Bulletin, write the Inspector of Public Libraries.

A separate chapter is devoted to machine shops and their specific requirements.

Emerson, Harrington "Efficiency as a Basis for Operation and Wages"... Engineering Magazine, \$2.00

After a philosophical review of the respective inefficiencies characteristic of every existing nation, the author discusses the relative importance of staff and line organization and of standards; the principles involved are then applied to practical cases in manufacturing and operating institutions and the results of the efficiency system, the location and elimination of wastes shown with a convincing force. The system of wage payment based on efficiency is novel, and has aroused a great deal of discussion among technical men.

Gurd, Norman S. "The Story of Tecumseh," illustrated from original paintings
by C. W. Jefferys, A. M. Wickson, L. K. Smith, and Fergus Kyle... Briggs, \$1.00

Mr. Gurd's book on Tecumseh is the second volume of the Canadian Heroes Series, published under the auspices of the Ontario Library Association, and will make a splendid companion book to Nursey's "Story of Brock." It is issued from the Briggs' press, and contains 24 chapters, a supplement, and over twenty illustrations. Four of these are in tri-color, "Tecumseh and Brock reconnoitering before crossing the river at Sandwich," "Tecumseh and Brock awaiting the flag of surrender at Fort Detroit," "The Battle on the Maumee," "The Death of Tecumseh at Moraviantown," and the "Attack on the flat-boats on the Ohio," in black and white. Mr. Gurd's book is written with much graphic force and literary skill, and apart from its value as an historical chronicle of the western peninsular campaign of 1812-13 abounds in stirring episodes of frontier warfare, describing for the youths of Canada the heroic struggle of the Indians under the great Tecumseh—Britain's ally—and the pathetic death of the latter at the battle of Moraviantown.

A Selected List of Books

RECOMMENDED BY THE ONTARIO LIBRARY ASSOCIATION FOR PURCHASE BY
THE PUBLIC LIBRARIES OF THIS PROVINCE.

The special attention of librarians and members of library boards is requested for Mrs. Hanna's paper on "Books for the Home and the Children," and for the Notices of the Inspector of Public Libraries. Mrs. Hanna's paper is an able presentation of her subject, and constitutes a valuable contribution to our library literature, being both comprehensive and practical. Mr. Nursey's suggestions deal with matters of such importance to our libraries, that they should be carefully noted and followed out in practice.

The lists of books of the first half of 1912 are suggestions rather than recommendations. Especial care, however, has been taken to make the lists accurate and to cover the best of the new books. The co-operation of the publishers in sending the editor advance notices is hereby gratefully acknowledged. Every library committee should, however, scrutinise these lists and the reviews that are available so as to purchase the very best of the current literature. The publisher is ready to answer any questions about the scope and character of his publications.

The Editor would welcome any notice of errors or omissions in this or any of the Lists, or any suggestions towards making the List more helpful to the libraries. Address—The Editor—Selected List of Books, care Inspector of Public Libraries,, Department of Education, Toronto.

The Decimal Classification is the official classification of the Department of Education of Ontario and of the Ontario Library Association. The Inspector of Public Libraries will, on application, give all necessary information in respect of this system.

For additional copies of this, or other numbers of the List, write the Inspector of Public Libraries.

Libraries are recommended to preserve these quarterly lists in bound form,
* or in a temporary binder, or pamphlet case.

BOOKS FOR THE HOME AND THE CHILDREN *

BY MRS. W. J. HANNA, SARNIA, ONT.

As the really important person in the home is the person who, for the time being, holds sway by virtue of his title "The Littlest One," we shall consider his needs first. Like every child for the past three hundred years, and, as far as present indications go, like every child for the next three hundred years, he will be introduced to the great world of books through the "Mother Goose Rhymes" and "Mother Goose Tales." The history of these immortal works is interesting. Andrew Lang has found an allusion to the lady in a French poem of 1650. In 1729 Charles Perrault, a noted French writer, published in Paris a collection of eight tales gathered from various sources with gay pictures of Mother Goose on the cover. These were: "Little Red Riding Hood," "Blue Beard," "Puss in Boots," "Cinderella," "Tom Thumb," "The Sleeping Beauty," "The Sisters Who Dropped from Their Mouths Toads and Diamonds," "Riquet with the Tuft." All but the last are loved and known still. These tales were soon translated into English.*

A few years later John Newberry, an enterprising London publisher, collected old rhymes and melodies and printed them, ascribing their authorship to the same mythical personage. The undying charm in these rhymes seems to lie in the jingle of the words, the notion of the story, and their utter nonsense, for instance, "Hey diddle diddle." There is something doing every minute in that lively poem. The Mother Goose books, of course, should have gay colored pictures, and had better be made of linen, the so-called "indestructible" kind.

Edward Lear's "Nonsense Rhymes" with the funny limericks are the best of the rivals to "Mother Goose." Of course, at present the child will be eager for stories to be told, and the mother will find great help in a set of ten volumes, called the "Story Hour," by Eva March Tappan (Houghton, Mifflin). She will find every one of the ten good. One volume called "Folk Stories and Fables" has all the Mother Goose Tales, a few from Grimm and many other old favorites. There should be Bible stories told by the mother, too, who will like the "Bible for Children," published by the Century Company.

For poetry, just now he will like to memorize "Stevenson's Child's Garden of Verses." Some of these are set to music, and he should learn some kindergarten motion songs to cultivate a love of good music.

By this time he should be beginning to read. If he is fortunate enough to get the "Eugene Field Reader," the "Robert Louis Stevenson Reader," "The Overall Boys," "The Child World Primer," by Aloys Bentley, all with good pictures, he will learn to read without knowing it.

As soon as he can read easily, the whole world of books will be open to him, and a grave responsibility will rest upon the parents, for to them he will look for choice of books, and direction in his reading.

In talking of choice of books for children, it seemed easier not to speak of books as suited to the ages of the children, for they differ so in their needs at different ages, but to speak of books on different subjects. For instance, after the nursery tales come myth and hero stories and stories of imagination, such as Andrew Lang's "Red Fairy Book" and "Blue Fairy Book," a few of Andersen's

* A paper read at the Fourth Annual Meeting of the Chatham Public Library Institute, in Sarnia, July 18th, 1911.

and "Arabian Nights," and Hawthorne's "Wonder Book." If these are too many giants, he should make acquaintance with "Alice in Wonderland" and all her interesting friends, as seen in the Tenniel illustrations. Then give him the "Boys' King Arthur," by Lanier, "The Merry Adventures of Robin Hood," by Howard Pyle. Then "Heroes Every Child Should Know," by Mabie, Kingsley's Greek Heroes, "The Heroes of Asgard," by Annie Kearney, not forgetting the Bible Heroes, using Moulton's edition. Then, to create a love of history, take "Puck of Pook's Hill," by Kipling, Hawthorne's "Grandfather's Chair," "Myths Every Child Should Know," by Mabie, and "Ben Hur," by Wallace, and then on to historical novels and history. Scott, of course, in "Kenilworth," "Ivanhoe," "The Talisman"; Dickens in "Tale of Two Cities"; Parkman's "Old Regime" and "Pioneers of France in the New World"; Cooper's "Last of the Mohicans," "The Deerslayer," and the other books of the Leather Stocking Series. A few of Henty's are good, but, knowing Scott, he will not need Henty.

With history of other countries should come a knowledge of our own history. "The Golden Dog," by William Kirby, "The Romance of Dollard," by Mrs. Catherwood, "The Seats of the Mighty," by Sir Gilbert Parker, will give him the early history of Quebec. "Wacousta," by Colonel Richardson, will tell him of events of the war of 1812 occurring near the St. Clair. "The Romance of Canada" is a readable history by Beckles Wilson. The girls will like "Heroines of Canadian History," by Herrington. Then, as the best way to read history is to read biography, he should have Nursey's "Story of Isaac Brock," and the second of the series of "Canadian Heroes," Gurd's Tecumseh and the rest, as issued.

Just here he should have Edward Everett Hales' "A Man Without a Country," to make him see the value of citizenship.

We shall start on another subject by speaking of Fables and Animal Stories. For the little child, "Friends and Helpers," by Sarah Eddy, tell simple little stories of cats and dogs; while the "Book of Nature Myths," by Florence Holbrook, is easily read by a young scholar. Then, when he is a little older and past "Æsop's Fables," he will like Kipling's "Just-So Stories" and the "Jungle Books," and "Black Beauty," by Anna Sewell, will make him considerate to horses. The story of "Nils," by Lagerlof, will teach him kindness to animals; while two good dog stories for him, when he is a little older, are "Rab and His Friends," by Dr. North, and "Bob, Son of Battle," by Alfred Ollivant.

Three good books of animal life are "Familiar Life in Forest and Stream," by F. S. Matthews, W. A. Fraser's "The Outcasts," and a collection of thrilling stories by different authors called "Animal Life and Adventure." Then, of course, there is Thompson-Seton's "Wild Animals I Have Known." To develop observation and a love of science give "Stories Mother Nature Told Her Children," by Kingsley; "How to Know Wild Flowers," by Dana; "Trees Every Child Should Know," by Rogers; "Flowers," by Stark; "Water Wonders," by Jean Thompson; "Ways of the Six-Footed," by Comstock; "The First and Second Book of Birds," by Millar; "Nature Biographies," by Weed; "The Friendly Stars," by Martin.

If our choice of books for the child has made history and science an interesting story, we should be able to do the same for his geography. Jane Andrews' "Seven Little Sisters" and "Ten Boys" give a good deal of information in a sugar-coated way. Then there are two excellent series, the "Little Cousins" and "Little People Everywhere." In the latter series the reader travels with "Fritz in Germany," "Boris in Russia," and so on. The child will like to hear about the "Chinese Boy and Girl," by Mr. Headland, whom some of us know, and he will also enjoy

hearing of "Hans Brinker," the little Dutch boy, by Mary Mapes Dodge. When he is a little older, he will enjoy Mark Twain's travel stories, the "Innocents Abroad," etc. The children of the family, of course, will have been reading fiction all the time. For the little ones are the "Brown Owl's Story," by Amy Prentice, the Pepper books by Margaret Sidney, "Four Little Mischiefs," by Mulholland. The boy will find a good camping story in "Bob Knight's Diary." "Toby Tyler," by Otis, has quite thrilling adventures of travelling with a circus. Stoddart's "Talking Leaves" tells of a boy among Indians. Then, Ballantyne and Mayne Reid tell good stories of the sea and the Indians. Alger's heroes think of nothing but making money, so our boy is better without him. Mark Twain's "Tom Sawyer" and "Huckleberry Finn" are good friends to make, while Stevenson's "Kidnapped" and "Treasure Island" are thrillers better than any "penny dreadful" or moving picture story.

All the boys' books will be read and loved by the girls in the house, and they should have some girls' books too. All Miss Alcott's are good, as are Mrs. Wiggin's "Polly Oliver," the "Birds' Christmas Carol," "Rebecca of Sunnybrook Farm." Miss Montgomery's (Mrs. Macdonald) Prince Edward Island girls are jolly girls, "Anne of Avonlea" and "Anne of Green Gables," "Kilmeny of the Orchard," and "The Story Girl."

Two other good Canadian authors are Mrs. Nellie McClung in "Sowing Seeds in Danny," and Norman Duncan in "The Suitable Child" and "Billy Topsail and Company." Good books of Canadian life are "Marjorie's Canadian Winter," by Agnes Maule Machar, and "Janet's Winter in Quebec," by Anna C. Ray. When they want boarding school stories there are L. T. Meade's "Sweet Girl Graduate," and Etta Baker's "Girls at Fairmount."

To give the children a love of poetry the mother should read, or, better still, repeat good poems to them. Three splendid collections of poems are Andrew Lang's "Blue Poetry Book," "A Book of Famous Verse," by Agnes Repplier, and "One Thousand Best Poems for Children," by Robert Ingpen. Then they should have "John Gilpin," "The Ancient Mariner," "Hiawatha," "The Prisoner of Chillon," and many others. When the children are young, they should be encouraged to memorize gems of poetry. When they once begin, they will continue to do this of their own accord, and there will be sleepless nights and depressed moods later in life, when such a storehouse of memory will be a blessing.

For the use of the whole family there will be a dictionary, an encyclopædia, Bartlett's quotations, and a good atlas. The father should have good books on whatever work he is engaged in. Then the mother needs a good cook book. The "Boston Cooking School Book" is sensible and practical. Maria Parloa's "Home Economics" will give her the best and easiest way to do her housekeeping. Dr. Emmet Holt will give her sound advice on the care and feeding of children. She will find "Food and Dietetics," by Pope and Carpenter, a useful work on a most important subject. "Household Management," published by the Chicago School of Home Economics, will be found invaluable.

But the mother has to look after the intellectual food of the family as well. For that she will find Bryant's "How to Tell Stories to the Children" a great help. Bertha Johnston's "Home Occupations" will help her in keeping the little one's busy indoors, while "Little Gardens," by Myrtle Higgins, will give her ideas for summer days. For the older children the "Boy Craftsman" and "Recreations for Girls" will give practical ideas for making things, as well as for games

and sports. If the boys have the Boy Scout microbe, they should have Baden-Powell's "The Scout."

"Pictures Every Child Should Know," by Dolores Bacon, should give the child an interest in Art, and "Stories of Great Musicians," by Scobey and Horne, will be a beginning for the music lover.

In the home some books will belong to all the family, but each member in it should have his own shelf of books. One good book every Christmas and birthday and sometimes one bought by his own self-denial will build up a good library in a few years. Not many books, but "much reading" is what educates a child. He should, when he leaves school, have formed the habit of good reading, having read only the best, viz., the classics. Then he will not miss the second best, and when he finishes school, he will feel that his education through books may go on as long as he lives.

SPECIAL NOTICES.

Gurd, Norman S. "The Story of Tecumseh," illustrated from original paintings

by C. W. Jefferys, A. M. Wickson, L. K. Smith, and Fergus Kyle Briggs, \$1.00

Mr. Gurd's book on Tecumseh is the second volume of the Canadian Heroes Series, published under the auspices of the Ontario Library Association, and will make a splendid companion book to Nursey's "Story of Brock." It is issued from the Briggs' press, and contains 24 chapters, a supplement, and over twenty illustrations. Four of these are in tri-color, "Tecumseh and Brock reconnoitering before crossing the river at Sandwich," "Tecumseh and Brock awaiting the flag of surrender at Fort Detroit," "The Battle on the Maumee," "The Death of Tecumseh at Moraviantown," and the "Attack on the flat-boats on the Ohio," in black and white. Mr. Gurd's book is written with much graphic force and literary skill, and apart from its value as an historical chronicle of the western peninsular campaign of 1812-13 abounds in stirring episodes of frontier warfare, describing for the youths of Canada the heroic struggle of the Indians under the great Tecumseh—Britain's ally—and the pathetic death of the latter at the battle of Moraviantown.

THE PUBLIC LIBRARIES ACT, 1909, WITH AMENDMENTS, 1911.

(2) This contains information indispensable in the organization and management of any library. Letters are daily reaching the office of the Inspector, asking for the procedure to be followed by municipalities or communities desirous of establishing a public library. Those interested should carefully study the provisions of the Act and pages 505-510, Inspector's Report, 1911, and then, if necessary, apply to the Inspector for any special information.

FERGUS PUBLIC LIBRARY.

(3) A pamphlet showing exterior views and working plans of the Fergus Public Library, which met with the special approval of the Carnegie Trust. This has been printed by the Department for the information of Library Boards wanting to build a small library.

"THE ANNUAL PROCEEDINGS OF THE ONTARIO LIBRARY ASSOCIATION
FOR 1912."

(4) Compiled by the Secretary of the O.L.A., and published and distributed at the expense of the Department. A most valuable record of the work accomplished by this progressive library organization.

"QUARTERLY BULLETIN OF RECOMMENDED BOOKS."

(5) Each number of these "Quarterly" publications (of which Vol. XI., Part 2, the latest issue now in your hands) contains between 400 and 500 titles of recent publications of all classes recommended by a special committee of the Ontario Library Association. The Bulletin is edited by Mr. E. A. Hardy, Secretary of the O. L. A., and published at the expense of the Department of Education. The Bulletin has assumed the importance that was promised and predicted for it. It is now the duty of every Book Selection Committee and Librarian to utilize it, and *preserve it as a permanent book of reference and a reliable guide in the periodical selection of books*. As a cumulative index to current literature, it meets the expressed wants of Library Boards, and at no expense to the Library. As an indication of its value, 500 extra copies are circulated by the Superintendent of Education, Dr. Seath, among High and Continuation Schools. Librarians and Secretaries are invited by the Inspector to report as to the extent of the practical use this Quarterly has been to them in the selection of books. Part 3, Vol. XI., will shortly be issued.

(6) "REPORT OF THE COMMITTEE ON PUBLIC LIBRARY INSTITUTES, 1909-10."

(7) "REPORT OF SPECIAL COMMITTEE ON TECHNICAL EDUCATION IN PUBLIC LIBRARIES, 1910."

A few copies only of these last-named pamphlets are in stock.

IMPORTANT.—All the above departmental publications connected with Library work should be treated by the Library officials as valuable books of ready reference. They should be *bound*, and placed where most easily accessible, both to the officials and the public and should be thoroughly and frequently perused by the Trustees, Secretaries, and Librarians, all of whom should be familiar with their contents.

IMPORTANT NOTICES.

NEW LIBRARY BUILDING.

Duplicate plans of all New Library buildings (Carnegie or otherwise) *must* now be filed with the Minister of Education before final adoption by the municipality interested.

LIBRARIES UNABLE TO EXIST.

Any Library that has received a Government grant, and has subsequently been compelled to close, must at once report the circumstance to the Department, and ask for instructions as to the disposal of its books.

TRAVELLING LIBRARIES.

Public Libraries or communities (Women's or Farmers' Institutes or Study Clubs, even individual students) desiring a free Travelling Library, or a special collection of books, should write to the Inspector for a printed form of application. See pages 522-536, Inspector's Report, 1911.

TECHNICAL LIBRARIES.

Libraries in towns in which industries are located can obtain a Travelling Library of *Technical Books* for the special use of the resident artisans, after filing a list of local industries with the Department of Education.

CLASSIFYING AND CATALOGUING.

Tables showing the approximate cost of classifying the books in Libraries under the Dewey Decimal System and for installing a card system of Cataloguing will be mailed on application. This applies to those Libraries requiring the services of the Departmental Cataloguer, which latter are provided, by arrangement with the Inspector, free of cost to the Public Library.

SUMMER LIBRARY SCHOOL.

The Minister of Education provided for the holding of a second session of the Ontario LIBRARY SCHOOL this summer in Toronto for the instruction of Librarians and others. The School opened on Monday, May 27th, 9 a.m., in the Library Building of the Toronto University, Queen's Park, with Miss B. Mabel Durham, B.A., as Instructor-in-Charge, and 24 registered students.

AMERICAN LIBRARY ASSOCIATION.

The Secretaries of those Library Boards who received a circular from the Secretary of the Ontario Library Association, announcing the holding of the annual conference of the American Library Association at Ottawa, are notified that the period fixed for the meeting will extend from June 26th to July 2nd next.

The Minister of Education has authorized the Inspector of Public Libraries, co-operating with the Ontario Library Association, to arrange for the free transportation of the local librarian or other representative delegated by those Library Boards that have accepted the invitation. Arrangements have been made with the American Eastern Railway Association for a return fare from any point in Ontario to and from Ottawa at a single rate.

To qualify for this privilege, and to obtain the refund of a railway fare, each delegate will have to file with the Inspector of Public Libraries: (1) A certificate, signed by the Secretary of his or her library, that he or she has been appointed a delegate to represent the library named; (2) a certificate, signed by the Railway Station Agent, at the point of departure, stating the cost of a first-class single railway fare to Ottawa. These forms have been forwarded to the Secretaries of the Public Libraries interested, and should be filled in and mailed to the Inspector at Toronto not later than Saturday, June 22nd, or handed to him at the Chateau Laurier Hotel, Ottawa, upon the delegate's arrival.

List of hotel accommodation at Ottawa will be mailed to the Secretaries of the Library Boards that have accepted.

The AMERICAN LIBRARY ASSOCIATION, organized in 1876, is one of the greatest library bodies of the world, and an active force in promoting library interests throughout this Continent. Ontario owes not a little to its work, which is representative of all that is best and foremost in library activity in the United States. The Ontario Library Association is the outcome of the meeting of the American Library Association held in 1900 in Montreal.

Subjects of vital and universal interest to all library workers will be discussed by men and women prominent in the library field and in related branches of endeavour. Attendance at this conference will ensure the creation of a wider range of library vision, and the acquirement of a fund of every-day practical knowledge of the greatest value, if those who attend resolutely prepare to profit by the opportunity. Not only should every delegate return home inspired and doubly enthusiastic, but it should be the special object of every Ontario representative to see that the pleasant cords that already knit together the brotherhood and sisterhood of library workers of this Continent will be tied still closer through this conference by a broader bond of interest.

It is well to remember that on this occasion the Ontario delegates should be stirred by the one purpose only—a common purpose, that recognizes neither international barrier nor impalpable line of latitude, the great aspiration being to increase the spread of pure literature—the democracy of letters, through the co-operation of the “public library,” which as an educational factor is fast being recognized as of equal importance with university, college or school. The deliberations of the members of this conference—hand in hand under the two flags of Canada and the United States, that specially stand for liberality of thought and educational progress—should surely result in the extension of library learning. May we not rest convinced that not only will this interchange of expert knowledge help to better qualify librarians and those other library enthusiasts for their rapidly compounding responsibilities, but that the publicity given to these proceedings will compel wider recognition of the library movement, which as a matter of fact makes for the practical enlightenment of every citizen.

Do not fail to attend the Ottawa Conference, not only to listen, but to contribute your own views and relate your own experience, if you only speak half-a-dozen words. The motto of this Conference is “*co-operation*” and the keynote “*the relation of the library to the individual*.”

A Selected List of Books

RECOMMENDED BY THE ONTARIO LIBRARY ASSOCIATION FOR PURCHASE BY
THE PUBLIC LIBRARIES OF THIS PROVINCE.

This list of sets and series of leading publishers has been compiled to meet several needs. First of all, there is the small library, such as the one represented at the last annual meeting of the Ontario Library Association. Their delegate asked for some practical suggestions in book-buying, keeping in mind the fact that their funds would not permit them to buy the current or standard books at \$1.50 and upwards. All such libraries will find in this number of the Selected List of Books an abundance of sets and series at a shilling—or even at sixpence—covering all departments of literature, standard and current. The range of literature at a shilling is little short of marvellous.

Then there are the medium and larger libraries which have to face the problem of replacing lost and worn out volumes—especially those belonging to sets—and the equally difficult problem of binding. An examination of the lists that follow will show that in many cases it is much better to replace a book with a new copy than to rebind. In fiction it would often be better to replace old titles with new ones, thus securing variety and freshness. This would not apply to standard fiction.

This number, Part III, Vol XI, was planned to include American publishers, but the amount of material offered by the British and Canadian publishers was so great that the American lists have been deferred for a later issue. The Editor would appreciate the co-operation of the American publishers in getting material for the American list, and would also appreciate any suggestions from the British and Canadian publishers in reference to this list of their series.

The Editor would welcome any notice of errors or omissions in this or any of the Lists, or any suggestions towards making the List more helpful to the libraries. Address—The Editor—Selected List of Books, care Inspector of Public Libraries, Department of Education, Toronto.

The Decimal Classification is the official classification of the Department of Education of Ontario and of the Ontario Library Association. The Inspector of Public Libraries will, on application, give all necessary information in respect of this system.

For additional copies of this, or other numbers of the List, write the Inspector of Public Libraries.

Libraries are recommended to preserve these quarterly lists in bound form, or in a temporary binder, or pamphlet case.

NOTICE BY THE INSPECTOR OF PUBLIC LIBRARIES.

The following Library Institutes will be held during the month of November, 1912:
London District at London, November 11 and 12.
Stratford District at Stratford, November 14 and 15.
Guelph District at Fergus, November 19 and 20.
Orangeville District at Brampton, November 21 and 22.
Belleville District at Kingston, November 26 and 27.

The attention of members of all Library Boards and their officers is especially drawn to the following:—

The idea of this year's programme is to make the Institute an elementary school of instruction in library methods. It is especially to be desired, therefore, that your librarian should be your representative. In any case, make a special effort this year to have a representative present at every session with a notebook, prepared to give your Board a report of the Institute, and to put into practice later in your library the ideas suggested at the Institute.

The Minister of Education has done everything in his power to make it possible for every Public Library to be represented, as will be evident from the clauses of the Public Libraries Act here quoted in full:

26. I. (c) The Minister may pay the travelling and other necessary expenses of one delegate from each Board in attending a meeting of the Institute.
- II. If a Board, after having received notice of the date for holding a meeting of the Library Institute, does not send a delegate to such a meeting, the Minister may withhold a sum not exceeding \$5 from the next Government grant payable to the Board.

Wherever possible, it is most desirable that the delegate should be the Librarian in actual charge of your library. Send name of your delegate to the Secretary of your Institute District Committee when a copy of the printed programme reaches you by mail.

WALTER R. NURSEY,
Inspector of Public Libraries.

A Selected List of Books

RECOMMENDED BY THE ONTARIO LIBRARY ASSOCIATION FOR PURCHASE BY THE PUBLIC LIBRARIES OF THIS PROVINCE.

Through the courtesy of the publishers in sending their announcements the Editor has been enabled to know of the Fall books more promptly and in more detail than has been the case heretofore. It has been possible, therefore, to select a larger number of titles and to give much more annotation than in any previous list.

The Editor would repeat what was said in XI. 2, viz., that book committees should not only scrutinise these lists carefully, but should also consult such book reviews as are available. In any case of doubt as to the scope or character of a book the publisher would cheerfully give the desired information.

It should be clearly understood that the Spring and Fall lists are rather suggestions than recommendations.

The Editor would welcome any notice of errors or omissions in this or any of the Lists, or any suggestions towards making the List more helpful to the libraries. Address—The Editor—Selected List of Books, care Inspector of Public Libraries, Department of Education, Toronto.

The Decimal Classification is the official classification of the Department of Education of Ontario and of the Ontario Library Association. The Inspector of Public Libraries will, on application, give all necessary information in respect of the system.

For additional copies of this, or other numbers of the List, write the Inspector of Public Libraries.

Libraries are recommended to preserve these quarterly lists in bound form, or in a temporary binder, or pamphlet case.

THE PUBLIC LIBRARY'S PART IN THE LIFE OF A MODERN CITY.

Excerpts from the Presidential Address of F. J. Leslie, F.R.G.S., C.C., to the Library Association of the United Kingdom, at Liverpool, Sept. 3rd, 1912.

"Often the librarian, on these and similar occasions, has had impressed upon him the supreme utility of his calling. This morning I would seek rather to emphasize its high nobility. His lofty mission it is to bring home to men's minds the true place and value of literature in their dull work-a-day world, to teach them how, by its purity and freshness, to cleanse the vitiated atmosphere in which they live, body and soul, in these dark dreary cities of ours.

"But no missionary will make converts if he sits at home and waits for them to come to him. He must wage an aggressive warfare against unbelief, if he is to succeed in winning men over to his creed. And so the librarian of to-day cannot afford to sit beside his well-stocked shelves and wait for customers, if his stores are to be used to their full value.

* * * * *

"Here, then, comes the opportunity of the public libraries. In them, and only in them, can we make the wisdom and experience of mankind easily accessible to all. By their means only can we do for grown men what the school does or ought to do for the children, to increase the common stock of knowledge and ideas for the whole community. The school's work has to be done in ten years; the public library, as an instrument of education, finds its opportunity in all the rest of life. It is capable of being made the greatest of all the forces which are slowly moving in upon what Emerson calls 'Chaos and the dark.'

* * * * *

"The future of the world to-day depends more than ever it did upon the wide diffusion of sound knowledge, and if the public libraries would take up, as they could, an active almost aggressive policy to that end, they would earn the gratitude of all who have the welfare of their country at heart, and silence for ever those carping critics who still openly question the utility of their work.

"This may seem to you a high ideal. Perhaps it is, but I do believe it is not unattainable; nay, I believe that the next generation, if not this, will see its attainment. The librarian who sets it before him as a motive of action needs courage, perseverance, and discretion. He must play the part of the university professor who merely guides the student in the way towards the truth, and leaves him to find it for himself. He must not take up the rôle of the schoolmaster, who compels the pupil to take that path which leads only to the conclusions he has reached himself.

* * * * *

"In this the public library is only taking its proper part in the whole scheme of civic life. A city hall, on noble architectural lines; a public gallery, full of the masterpieces of famous painters and sculptors; a school of art, teaching from

high ideals; a street garden, bright with flowers; the music of a municipal orchestra; a great library, treasuring on its shelves the aspirations and ideas of the thinkers of the present and the past; all these are the forces to which the community confidently looks to uphold the cause of righteousness, and peace, and purity, amid the turmoil and the strife, the industrial unrest, the individual selfishness, of this present time. And among them all the public library must hold a foremost place.

“We need not deliberate nowadays upon the building and equipment of our libraries. That is all done. What we have to do now is to extend their use by the people, to let them know what we have to give them, and to make it easy for them to get at it. The student and the scholar know us already. Beyond taking care that we have what they want when they come, we need not concern ourselves much about them. It is to those who will not come of their own accord that we have to go out and compel them to come in. The libraries are theirs, and for their own sakes and ours they must be taught to use them. The generation to which we belong will be known as that which built up public libraries. Let us hope that succeeding generations may say of us ‘They builded even better than they knew.’”

A Selected List of Books

RECOMMENDED BY THE ONTARIO LIBRARY ASSOCIATION FOR PURCHASE BY THE
PUBLIC LIBRARIES OF THIS PROVINCE.

The following tables of book production in the four leading book countries (taken from the *Publishers' Weekly*) need little comment. They reveal very clearly the necessity of some guide for our libraries in making their selections from current literature. The great mass of new books almost dazes the expert bookman in his effort to keep track of what is issuing from the press, and completely overwhelms the ordinary buyer.

The present number is the third annual list of selections from the books of the previous year. The Editor is deeply indebted to those who have so kindly placed their expert knowledge at the disposal of our libraries.

The Editor would welcome any notice of errors or omissions in this or any of the Lists, or any suggestions towards making the List more helpful to the libraries. Address—The Editor—Selected List of Books, care Inspector of Public Libraries, Department of Education, Toronto.

The Decimal Classification is the official classification of the Department of Education of Ontario and of the Ontario Library Association. The Inspector of Public Libraries will, on application, give all necessary information in respect of the system.

For additional copies of this, or other numbers of the List, write the Inspector of Public Libraries.

Libraries are recommended to preserve these quarterly lists in bound form, or in a temporary binder, or pamphlet case.

The prices given in the List are, generally speaking, Canadian prices, which differ in a good many instances from British and American prices. The variations are usually slight.

CANADIAN BOOKS OF 1912.

By F. S. EWENS, Methodist Book and Publishing House, Toronto.

In the following list there will be found the books of 1912 from the pens of native Canadian writers, and issued by Canadian publishers. There are also included the books of the year which deal with Canada or in which the scenes are laid in this country. Some of these are by Canadian authors, resident abroad, while others are from the pens of British and American authors. The list does not pretend to be absolutely complete, but embodies most of the books of value which have been published during the last year. This list does not include the hundreds of books by non-Canadian writers, bearing the imprint of Canadian publishers, which were issued originally in Great Britain and the United States, and which were imported by Canadian importers in imprinted sheets. While these bear the imprint of Canadian publishers they have no specific place in this list, as they did not originate in Canada, and have no bearing on Canada or Canadian affairs.

It is hoped that this list may be helpful in keeping librarians in touch with our native writers, and with the books which are being issued about Canada. It is not so much a list of recommended books, however, as it is a record of the year's Canadian books.

THE SELECTED LIST OF BOOKS.

THE PURPOSE.

The purpose of this quarterly List, which is issued by and circulated at the expense of the Department of Education, Province of Ontario, is (a) to acquaint the Public Libraries of Ontario—over 400 in number—with the best of current publications, so that they may be guided in the purchase of new books; and (b) to furnish select bibliographies on special topics, *e.g.*, Agriculture, Canadian Poetry, Books for Boys and Girls, Biography, Travel and Description, Art, Out-door Books.

THE QUARTERLY ISSUES TO DATE.

There have been issued recently the following numbers:—

GENERAL SCHEME.

The issues for 1913 are planned as follows:—

- | | | | |
|------------------|-----------|--|-------------|
| Vol. XII.—Part 1 | (issued). | (a) Selections of the Best Books of 1912. | 530 Titles. |
| | | (b) Suggestions by Inspector of Public Libraries. | |

It is altogether likely that this will be the general plan in subsequent years, Part 3 being used for some special topic.

SUGGESTIONS TO PUBLISHERS.

In view of what has been stated, the Editor would suggest to the Publishers:—

- (a) That catalogues and announcements be regularly sent;
- (b) That, in addition to these printed announcements and lists, a special memorandum be prepared, listing books that the publisher thinks especially suitable for our constituency, and *giving date of publication*. (The date is especially requested);
- (c) That any suggestion or criticism that would tend to improve these lists be made promptly and frankly. The Editor is indebted to several publishers for such criticisms and suggestions;
- (d) That it is the judgment of those connected with these quarterly Lists that it is quite as much in the interest of the publisher as of the library, that unsuitable books be not sold to the public libraries, and the co-operation of the publisher is requested that the quarterly Lists may fulfil their purpose in this respect.

These Lists are regularly sent through the Department of Education, Ontario, not only to the Public Libraries of Ontario, but also to the High Schools and Continuation Schools of the Province (about 300). They are also sent to the leading publishers of Canada, Great Britain and the United States; to members of the Ontario Library Association; to the leading Library and Literary Journals—Canadian, British and American; to the Library Schools and the Library Commissions of the United States; and to leading librarians in Great Britain, United States, and the other Provinces of Canada.

The value of these Lists is evident from the testimony of those who receive and use them and a wider recognition is continually apparent. The Public Libraries in Ontario represent a constituency which expends over \$50,000 a year in books and periodicals, and which desires to expend every dollar on the best available literature. The co-operation of the Publishers is therefore requested that these Lists may be as accurate and timely and generally helpful as possible.

SPECIAL NOTICES Re LIBRARY MATTERS

By the Inspector of Public Libraries.

Trustees of Library Boards, Librarians, and other library workers are reminded that it is the present intention of the Minister of Education to hold a Third Session of the SUMMER LIBRARY SCHOOL sometime in the early summer of 1913. As instructional facilities can be extended only to a limited number of students, early application for admission is necessary.

Library Trustees, in co-operation with Municipal Councils contemplating applying for a Carnegie Grant, should write to the Inspector for special information.

The Annual Reports of all Public Libraries, *Free and Association*, should be rendered to the Department, in compliance with the Act, not later than February 15th. Up to date, however, about 75 libraries have not reported for 1912. Trustees should instruct their Secretary, and other officials responsible, that, unless their delayed Reports are forwarded to the Inspector before the *30th of April next, at latest*, the regulation applicable to such neglect, provided for by Section 29, Sub-sections 1 & 2 of the Act, will be enforced. A few libraries, year after year, have persistently ignored official instructions in this respect, delaying payment of the Legislative grants to other more deserving libraries. This cannot be allowed in future.

Committees formerly possessing a library which has been *taken off the active list* for non-compliance with the statute, and desiring to re-establish the same, cannot legally do so unless they comply with the provisions of the Act regarding re-organization.

"Where a Board fails or neglects to keep open the Library for two years, or to furnish an annual report, for two consecutive years, such failure or neglect shall effect a dissolution of the corporation, and the Minister may take possession of all its books, magazines and periodicals."—Public Libraries Act, Section 29, Sub-section 1.

The above rule applies to communities that have never had a Library, but are anxious to establish one. Complete instructions, as to procedure necessary, both in regard to *re-organization* and *organization*, can be obtained upon application to the Inspector.

Public Library Boards are notified that, if in future they neglect to send a delegate to their Annual District Library Institute, the penalty provided, under Section 26, Sub-section 2, will be imposed.

Struggling libraries, Farmer's Institutes, Women's Institutes, Study Clubs, and other similar organizations are reminded that, subject to the regulations, they can obtain, upon application through the Inspector, the free loan of a Travelling Library for a period of three months, or longer, by arrangement. The Minister of Education may also authorize the loan of a special collection of books, under certain conditions, to any individual who desires particular information in respect to any specific subject, provided it is not feasible to obtain the books otherwise.

Technological collections are also loaned for the special use of artisans and mechanics. These are placed in the custody of the local Public Library, and cover local industries. Collections are also issued for: (1) Children only; (2) young men and women only, and (3) by personal arrangement for the use of lecturers engaged in educational work of a related nature.

In the case of communities contemplating establishing a Public Library, or of Library Boards wanting special information, in respect to methods of organization and administration and library essentials, the following publications will be of practical assistance:

LIBRARY ARCHITECTURE.

"Plans of Small Library Buildings," By Marvin	\$1.25
"Library Buildings," By W. R. Eastman	10c.

LIBRARY TRACTS.

No. of Tract.

8. "A Village Library," By Mary A. Tarbell	5c.
9. "Library School Training," By Mary W. Plummer	5c.
10. "Why Do We Need a Public Library?" By Chalmers Hadley	5c.

LIBRARY HANDBOOKS.

5. "Binding for Small Libraries," By A. L. A. Committee	15c.
6. "Mending and Repair of Books," By Margaret W. Brown	15c.
1. "Essentials in Library Administration," By Miss L. E. Stearns.....	25c.

All of the above can be obtained from the Secretary of the American Library Association, 78 E. Washington St., Chicago, U.S. Copies of some of the "Library Tracts" can be obtained free, upon application to the Inspector.

A limited number of the following Departmental Publications are available for Free distribution, for the use of those actively interested in Library work, viz.:—

A SELECTED LIST OF BOOKS

RECOMMENDED BY THE ONTARIO LIBRARY ASSOCIATION FOR PURCHASE BY THE
PUBLIC LIBRARIES OF THIS PROVINCE.

This number of the Selected List of Books contains suggested titles from the publications of the first half of 1913. As has been pointed out in the *Publishers' Weekly* and other journals, 1913 has proved, up to the present, an exceptionally good year, in both the quantity and the quality of the books produced. Especially is this true in fiction. There are literally hundreds of bright, clean, readable novels and romances, and it is of course difficult to know just what to choose, and what to omit.

It must always be remembered that parts II. and IV. of the Selected Lists are suggestions rather than recommendations. Part I contains the annual lists of the recommended books of the year as selected by experts in various departments.

At the request of the Inspector of Public Libraries the Editor has marked with an asterisk a few books that are specially recommended. This has been done to assist the Book Committees of the smaller libraries which have only a few dollars for a new books. It is, naturally, a difficult matter to make such selection, but the Editor has made the attempt, relying upon the A. L. A. Booklist, The Bookman (London), The Dial, The Book Review Digest and the monthly bulletins of various public libraries as well as upon his personal examination of many of the books selected. A few books have been marked with a double asterisk as a specially select list.

The Editor would welcome any notice of errors or omissions in this or any of the Lists, or any suggestions towards making the List more helpful to the libraries. Address—The Editor—Selected List of Books, care Inspector of Public Libraries, Department of Education, Toronto.

The Decimal Classification is the official classification of the Department of Education of Ontario and of the Ontario Library Association. The Inspector of Public Libraries will, on application, give all necessary information in respect of the system.

For additional copies of this, or other numbers of the List, write the Inspector of Public Libraries.

Libraries are recommended to preserve these quarterly lists in bound form, or in a temporary binder, or pamphlet case.

The prices given in the Lists are, generally speaking, Canadian prices, which differ in a good many instances from British and American prices. The variations are usually slight. In many cases the Canadian, British and American publishers are given for the sake of reference.

THE MUNICIPAL REFERENCE LIBRARY IN TORONTO.

Paper read by Miss Dora Spears, Librarian of the Municipal Library, at the May meeting of the Toronto Public Library Club, and reprinted from Toronto Public Library Bulletin, May, 1913, by kind permission of the Chief Librarian:—

To secure good municipal government is one of the many problems of the day. People are beginning to realize that lack of knowledge, poor laws and bad administration, must result in high taxes, inefficient service and unsanitary conditions. Honesty and sincerity are not only the qualifications needed to make our government what it should be. It is just as necessary to have efficiency, and that can best be acquired by a thorough knowledge of the facts and conditions relating to each and every question coming up for consideration.

A continuous theme of discussion in municipal government is the conflict or rivalry between public and corporate ownership of public utilities. Water, gas, electric power and light, and street railway services may be provided by private corporations or by municipal councils. Both methods have been tried under varying circumstances. Toronto, for example, has had a water company, a water commission, and now a municipal water service. We are wavering now between private and public ownership of the street railway, and the Hydro Electric has substituted public for private ownership in many municipalities. The Municipal Reference Library can do a great deal in providing full information as to the experience of various towns and cities with both methods under different conditions. This should be of assistance in arriving at a satisfactory decision when the rival methods are brought up for consideration from time to time by civic representatives. To enable our officials to obtain this and similar information was one of the many reasons prompting Mr. Locke to open a Municipal Reference Library in the City Hall. This was undertaken with the aid of Mr. F. S. Spence, then Acting Mayor of the city, who has always been a strong advocate of more knowledge of public affairs, believing that inefficiency is the result of ignorance rather than of wilfulness.

This branch of the work has now been in existence for nearly two years, and during that time has fully demonstrated the fact that it has its place in municipal affairs. At first we encountered the natural human aversion to change or innovation of any kind, an aversion which seems much stronger among public officials than any other class, but that was to be expected, for each departmental head and each official had what might be called his own library. He had his reports, records, documents and books to which he might wish to refer at any time. He knew where they were and could find them conveniently, or thought he could, and was not favourable to the idea of having them removed to another part of the building, even if they were to be more systematically arranged and prepared for reference. The argument that the material would be available for the public was not always effective in securing it, for the tendency to resent anything that could be regarded as meddling and interfering arose in opposition. The wisdom of having information for the press was anything but a persuasive argument, for the attitude of the official towards the reporter is well known. These experiences and observations are mentioned to show that it was not easy to overcome this initial reluctance and get the information necessary to the usefulness of a Municipal Reference Library, but, once overcome, contributions from the various departments became quite frequent and we soon had a great deal of printed matter classified and arranged.

One has to be closely in touch with municipal affairs to realize their scope and importance. We are so accustomed to drawing a supply of water by opening a tap, emptying a basin by lifting a stopper, having our streets and roadways swept and sprinkled and safely lighted at night. We feel secure in the knowledge that a call on the telephone will bring a policeman or trained fireman with many appliances. All these and other services are so familiar that we seldom think of the complicated organization and varied kinds of skill necessary to meet the public demands.

Out of the experiments, mistakes, and successes that have brought municipal government to its present state of perfection and imperfection, and are every day leading to general changes and improvements, there has accumulated a large amount of matter in the form of reports and dissertations which should be available for all who are interested in municipal politics. This is forced on the attention by the examination of the material already in hand. The water supply, the subject uppermost in the minds of the people of Toronto, is cited as an illustration. There are eight pamphlets in the cover reserved for Water supply and Sewage disposal. These go back to the report of the Committee which investigated the supply from Lake Simcoe in 1891. One of the most important is the report of Mr. James Mansergh, the prominent British engineer, in 1896, and they continue down to the report of the Commission of engineers issued during 1912. This series, with the reports of the City Engineer of which we have a complete set, has been in constant demand during the discussion of the water supply and its many misfortunes.

In the cover for Railway affairs there are already many pamphlets and it begins to bear some resemblance to the average car during the rush hours. We have the agreement between the present company and the city, the judgments in the various legal actions which have grown out of it, reports of deputations which have investigated conditions in other cities, and records of changes introduced, including the Sunday car by-law of 1897. The latest addition is the long-delayed report of the traffic experts, which was published last month.

Under Street lighting there are several reports and records of agreements between the city and the gas company, the electric light and hydro companies.

Civic improvement is a comprehensive subject, and this material is bound to grow and improve. The early efforts in the direction of improving the city's appearance by providing parks, driveways and boulevards are now of historic interest. There is more recent information far more encouraging, which includes the bulletins issued by the Civic Guild.

This is not an attempt to give an outline of what we already have, for that would be merely tiresome, but rather to indicate the library's scope and possibilities.

The "National Municipal Review," "American City," "American Municipalities," "Survey," "Local Government Review," "Town Planning" and "Garden Cities," with the more local periodicals, are eagerly awaited each month by those interested in the various topics dealt with. For more general reading we have the "Australasian," and "The Weekly Press," published in New Zealand.

Another feature is the indexed newspaper record which not only contains the reports of the Council meetings, the Board of Control and various standing and special committees, but the comment, criticism and advice given by the six Toronto paper from day to day on municipal management. The clippings contain also the daily grist of news gathered by the reporters about the Hall. This collection of comment, both personal and public, forms a valuable record of civic politics and the course of public opinion on municipal issues.

The reporters were the first to avail themselves of the advantages of the Library, and they frequently come to refresh their memories on old questions revived and to secure scraps of civic history to embellish their articles.

We suggested that the many pamphlets on civic affairs coming to the newspaper offices might not be required in their libraries but would be of much value where such things are specialized. This has brought us many interesting reports, some from other cities.

The Mayor and some of the Controllers and Aldermen have found the library to be a source of information, and the more important topics on which material has been requested are Building By-laws, Charters, Child Labour, City Franchises, City Planning, Commission Government, Employer's Liability, Fire Protection, Filtration, Food Inspection, Grade Crossings, Housing Problems, Juvenile Courts, Municipal Abattoirs, Municipal Ownership, Parcels Post, Sewage Disposal, Single Tax, Street Traffic, Terminal Market Systems, Transportation Laws, and Vital Statistics.

Sometimes special information has to be gathered from other sources. In doing this we have found Nelson's Research Bureau very helpful, and many thanks are due to our own General Reference Library for the assistance received from that Department.

Our Library, though small, is representative and has been discovered by all classes of patrons and frequenters. The old man who seems to live but to absorb, the student preparing his essay, the expert planning a life of special knowledge, and the seeker for facts and records, all go to make up the day's work in the Municipal Reference Library in the City Hall.

"The plan of the book is different from others in the same field. It does not
catalogue diseases and then give systematic descriptions of their symptoms, causes,
treatment, etc. It catalogues the simple, everyday, well-known ailments by their
common names, then describes the symptoms of the harmless indispositions, tells
how to treat them, and sharply marks them off from the serious diseases demanding
the doctor's advice. There has been included a section dealing with emergencies and
what to do before the doctor comes."—Publishers' note.

Churchill, Winston....."The Inside of the Cup".....Macmillan, 1.50

*

"Especially no preacher should fail to read 'Inside of the Cup,' the new story by Winston Churchill, author of 'Richard Carvel,' 'The Crisis,' 'The Crossing,' etc. It is sure to startle and to shock, but that is not the reason why we say preachers should read it. This story undertakes to put popularly and concretely the situation as its able author sees it. Nowhere else have we seen painted so graphically what the teachers of religion to-day face. What is true in this deliverance preachers need to be brave enough to espouse and advocate; what is not true they need to see clearly and to prepare to meet and overthrow. The leaders in the religious world have before them in this time, as so graphically pictured here in a preacher's experience, no tasks fitted to weaklings, to ignoramuses, to cowards. It is impossible to review the book. It undertakes to overhaul the church, to reinterpret theology, to expound the new philosophy, to designate the ways and means for bringing on the new society, the new state and church, to picture the coming Kingdom of God. The author blunders and falls again and again, but in it all he represents the stirrings and questionings and fallings of our times, and that is why we say that preachers should read it."—"Baptist World."

Marriott, Charles.... "The Catfish".... McLeod & Allen (Bobbs-Merrill; Hurst &

Blackett), \$1.25

An unfortunate title, and an attitude throughout the book (somewhat as in Arnold Bennett's "Denry the Audacious") of depreciation of the hero on the part of the author. In spite of these defects, it is a careful and strong piece of character study.

Miller, Henry R..... "The Ambition of Mark Truitt"..... McLeod & Allen

(Bobbs-Merrill), \$1.25

The hero is at first a young man in a country village. Ambition stirs within him to become a man of wealth and power. He succeeds, but he pays a fearful price. One of Parker's strongest books, and nearer the style of "The Right of Way" than perhaps any other of his novels. London and South Africa are the chief scenes of action. Collections are also issued for: (1) Children only; (2) young men women only, and (3) by personal arrangement for the use of lectures engaged in educational work of a related nature.

A SELECTED LIST OF BOOKS

RECOMMENDED BY THE ONTARIO LIBRARY ASSOCIATION FOR PURCHASE BY
THE PUBLIC LIBRARIES OF THIS PROVINCE.

The lists of sets and series of leading publishers have been compiled to meet several needs. First of all, there are the small libraries, whose funds would not permit them to buy the current or standard books at \$1.50 and upwards. All such libraries will find in this number of the Selected List of Books and in Part III., Vol. XI., an abundance of sets and series at a low price, covering all departments of literature, standard and current. Then there are the medium and larger libraries which have to face the problem of replacing lost and worn out volumes—especially those belonging to sets—and the equally difficult problem of binding. An examination of the lists will show that in many cases it is much better to replace a book with a new copy than to rebind. In fiction it would often be better to replace old titles with new ones, thus securing variety and freshness. This would not apply to standard fiction.

This number is a supplement to Part III, Vol. XI, which listed the series offered by the British and Canadian publishers. The Editor would appreciate the co-operation of the American publishers in checking over this list, and would also appreciate any suggestions that would improve any subsequent re-issue.

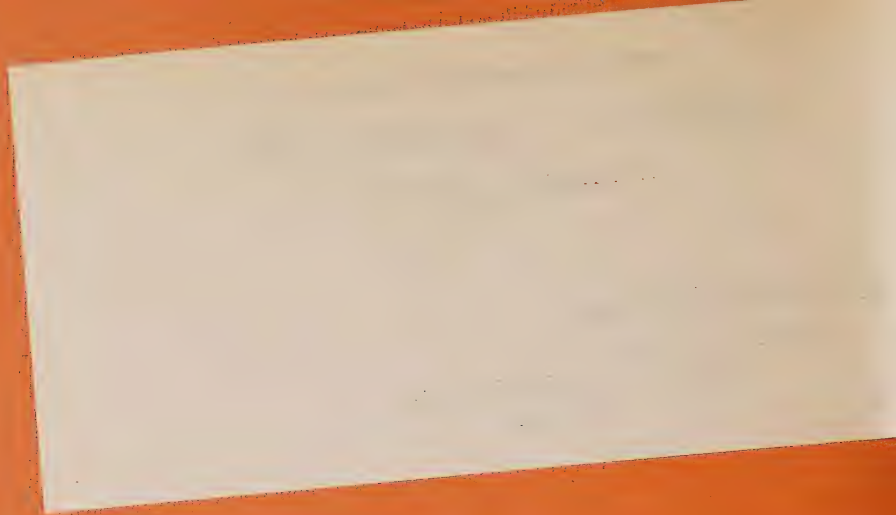

The Editor would welcome any notice of errors or omissions in this or any of the Lists, or any suggestions towards making the List more helpful to the libraries. Address—The Editor—Selected List of Books, care Inspector of Public Libraries, Department of Education, Toronto.

The Decimal Classification is the official classification of the Department of Education of Ontario and of the Ontario Library Association. The Inspector of Public Libraries will, on application, give all necessary information in respect of this system.

Libraries are recommended to preserve these quarterly lists in bound form, or in a temporary binder, or pamphlet case.

Libraries are recommended to place a copy of these lists on Reading Room tables, where their readers may look them over and find suggestions to be handed in to the Book Committee.

For additional copies of this, or other numbers of the List, write the Inspector of Public Libraries.

SPECIAL NOTICE:

LIBRARY BINDING AND SUPPLY FIRMS.

Cedric Chivers, 911-913 Atlantic Ave., Brooklyn, N.Y.

H. R. Huntting & Co., Springfield, Mass.

These firms make a specialty of library binding and of issuing in re-inforced binding popular current and standard books. Public libraries would do well to be put on the mailing lists of these firms so as to be constantly informed as to their new offerings. A great many libraries have found it true economy to buy the re-inforced books at the outset, for they save both time and money and outlast several copies in the ordinary binding. The average price of new fiction in this library binding is about the published retail price without any discount.

A Selected List of Books

RECOMMENDED BY THE ONTARIO LIBRARY ASSOCIATION FOR PURCHASE BY
THE PUBLIC LIBRARIES OF THIS PROVINCE.

"The idea that the Library is a mighty instrument of social service, not yet understood indeed, but coming however gradually to its own, inspires us as it inspires them. No other peoples seem to have it, at any rate in the same degree. It is perhaps not the least of the contributions which the Anglo-Saxon race has made or is making to the social, intellectual and spiritual welfare of the world."

From the report of the American Library Association 1913 meeting by Mr. L. Stanley Jast, Secretary Library Association of the United Kingdom—Library Association Record, Nov., 1913.

Parts II. and IV. are lists of suggestions rather than recommendations. This list, Part IV., indicates something of the large output of the Fall books of 1913. There were few outstanding books, however, especially in fiction, a decidedly different condition from that of the Spring books of 1913.

The Editor would welcome any notice of errors or omissions in this or any of the Lists, or any suggestions towards making the List more helpful to the libraries. Address—The Editor—Selected List of Books, care Inspector of Public Libraries, Department of Education, Toronto.

The Decimal Classification is the official classification of the Department of Education of Ontario and of the Ontario Library Association. The Inspector of Public Libraries will, on application, give all necessary information in respect of this system.

For additional copies of this, or other numbers of the List, write the Inspector of Public Libraries.

Libraries are recommended to preserve these quarterly lists in bound form, or in a temporary binder, or pamphlet case.

Libraries are recommended to place these Selected Lists on the Reading Room tables, where their readers may look them over and find suggestions to be handed in to the Book Committee.

The prices quoted are usually Canadian prices, which in several instances differ slightly from British or American prices.

NOTE.—The single star (*) indicates that the book so designated is recommended to the attention of Library Committees, and the double star (**) indicates special recommendation.

"This book illustrates in seventy-six coloured panels the entire length of the famous tapestry, which is probably the most wonderful work of its kind in existence. 'There is no other example,' says Mr. Belloc in his introduction, 'of a record contemporary or nearly contemporary with an event so remote in the story of Christendom, detailed upon so considerable a scale, and relating to a matter of such moment.' We have here, in short, a complete pageant of William the Norman's Conquest of England set before us with all the naive vigor and dramatic feeling of the twelfth-century craftswoman. Mr. Belloc, besides his detailed historical introduction, provides a running commentary on each of the seventy-six panels, which are so arranged as wonderfully to preserve the effect of the fascinating original."—Publishers' note.

Longmans, 5s.

"A selection of papers and addresses dealing mainly with the questions of Imperial Federation and Federal Government for the United Kingdom. Papers are also included on Imperial Defence and Imperial Preference. The author endeavours to show that it is impossible to manage efficiently the internal affairs of the United Kingdom and those of our widely extended Empire by means of the same legislative machinery, and points out that the interests of the people at home and of the Empire at large suffer under the present conditions of Parliamentary Government. A measure of Federal Home Rule is suggested as the only remedy, and it is urged that the whole constitutional question should be referred to a Conference or Convention on the South African model."—Publishers' note.

In a previous volume, "The New World of the South: Australia in the Making," an account is given of the sea adventures which clothe with dramatic interest the early discovery of Australia. The present volume carries on the story of Australian development on the same lines: it describes the drama of the gold discoveries; the second generation of the bushrangers, with the doings of the Kelly gang, one of the strangest stories in the history of crime under any sky; the later explorers—the tragedy of the Kennedy Expedition, Leichardt with his mysterious disappearance, Eyre's race with death for a thousand miles, the Burke and Wills Expedition, etc. The chain of history, rich in romance and adventure, ends with the federation of the six Colonies, and the birth of the Australian Commonwealth.—Publishers' note.

 England and the United States, on the St. Lawrence and Lake Ontario—were of the
 same genre as the gallant pig-tailed tars associated in our minds with the triumphs
 of the Baltic and Trafalgar. The author has seized the opportunity presented by re-
 markable historical material to relate some thrilling incidents of the war on the
 Great Lakes. Some of the titles of the chapters speak for themselves. "The Niagara
 Sweepstakes" and "The Escape of the Slippery Six" hold out promise of escapade
 and adventure, which the stories fully realize. The general movement and spirit of
 the time are excellently suggested by the vivid style of the author."—Publishers' note.

Thomas, W. B., and Collett, A. K. "Autumn and Winter" .. Copp, Clark (Jack), 12s. 6d.

First volume of "The English Year."

"The English Year" is an endeavour to present by word and picture the meaning and savour of the months and seasons in the British Isles; wind and rain and frost; birds and beasts and insects; grasses and mosses and trees; the stars; even the accidents of our almanac combine to give each month a very distinct character. The authors have described under each month what is most characteristic, what is best worth observing, and what has given them most pleasure in the observation, with a view to extracting the full zest out of the season. The illustrations are designed to the same end. The circle of the year will be completed in three volumes, each independent of the other and complete in itself. The first, now ready, contains the record of autumn and winter."—Publishers' note.

DuCane, Ella, and Todd, John A. .. "The Banks of the Nile" .. Macmillan (Black), \$6.00

"The fascination of Egypt is that its history is preserved in physical fact, lying before us, sometimes in mounds of which the top and bottom layers are thousands of years apart. What the traveller wants is to so understand the past as to be able to string together the existing remains of former times upon their proper thread of history. But the thread must not be obtrusive. What is to be described in this volume is the Egypt of to-day, for Egypt is literally the banks of the Nile and nothing more. A chronological summary of the history and existing monuments of each period, and references to books for further reading are given. Miss Ella Du Cane's water-colours are always radiant with the warmth, light and colour of scenes pictured under sunny skies, and in the series that she has drawn for this volume will be found something also of the glamour which Egypt casts over every visitor to that historic wonderland."—Publisher's note.

"The finest of modern tales of heroism in exploration. It is so great a tale that we should like it read by every man and boy in the British Empire."—"Spectator."

"The story of Captain Scott's last expedition is an epic worthy of the British race. It is here told fully for the first time by his own journal and letters in words that will deepen in every heart the sense of personal bereavement and solemn pride which the news of his untimely death inspired."—H. W. Wilson, in "London Daily Mail."

"There is courage and strength, and loyalty and love shining out of the second volume no less than out of the first; there were gallant gentlemen who lived as well as gallant gentlemen who died; but it is the story of Scott told by himself, which will give the book a place among the great books of the world. Indeed, it is a wonderful tale of manliness that these two volumes tell us. I put them down now; but I have been for a few days in the company of the brave . . . and every hour with them has made me more proud for those who died, and more humble for myself."—"Punch."

 greatest Ambassador who has represented this country in modern times. The full
 and deeply interesting account of Lord Lyons' career, which has now been given to
 the world, amply attests the validity of this claim. It is greatly to be hoped that
 this 'Record of British Diplomacy,' as Lord Newton has very aptly called it, will be

FICTION

"Was there ever a time when there were so many able practitioners of the art of fiction as at the present day? All the eight examples of the modern novel on my desk exemplify the general excellence at which we have arrived in point of workmanlike execution. If the genius of the age does not lie in the direction of a "Comédie Humaine," that is not to say that fiction is not giving us a complete contemporary picture of life, although it is the work of several pens, and not of one only. In short, it is the age of talent, and while waiting for genius, let us be thankful for the harvest."—*Wilkinson Sherren, "The Bookman" (London), Sept., 1913.*

- Abbott, Eleanor H. "The White Linen Nurse" Copp (Century), \$1.00
A remarkable study of the souls of a nurse and the senior surgeon. The spirit of the hospital and the surgery permeates the book. The awakening of love as a master passion is subtly done. The coarseness of language here and there is dramatic. No so charming as "Molly Make-Believe," but a stronger book.

- Alden, Mrs. G. R. ("Pansy")..... "Four Mothers at Chatauqua".....Lothrop, \$1.50

**

William Adolphus is an office boy in Toronto who develops into a comedian of promise. He is certainly a unique character. The book is delightful; the slang is racy; the pathetic touches good; the incidental character touches excellent. A capital addition to our shelf of Canadian humor.

Opening situation something like that in "Blue Anchor Inn." The hero must wed inside of fourteen hours in order to secure a fortune of four millions. Burnett, Frances Hodgson "T. Tembarom" Briggs (Century), \$1.40

**

After the type of "Little Lord Fauntleroy." The American heir, however, is a young man in this story. His reception by Lancashire society, upper and lower, is well told. The touches of villainy help out the plot considerably. The heroine "is a wonder." Altogether one of the most delightful books of the year.

- Comfort, Will Levington. "Down Among Men" .. Oxford University Press (Doran), \$1.25
 A strong book. The story of a newspaper man who comes up from the lowest and hardest circumstances, who, by reporting the Russo-Japanese War (from the Russian side) under the hardest conditions, leaps into fame, who loves, but finds marriage denied for fear it would cripple him in his great task of going down among men to lift them up. All these years she is searching for a husband, love being hampered by lure of money. Undoubtedly clever, if not always convincing; in parts, daring; resembling in general quality Mrs. Harris' other books, "The Recording Angel" and "The Circuit Rider's Wife." Background is a not too flattering picture of Southern society life.
- Hay, Ian "Happy-Go-Lucky" Briggs (Blackwood; Houghton), \$1.25
Clever and amusing sketches of episodes in the life of several English school chums; first at school, then at the university, and then later in life. Some very droll situations and narrow escapes.

 Charles Marriott is decidedly above the average novelist. His story of 1912, "The Catfish," and this book are subtle, psychological studies, not always easy to read, but indicating knowledge of character and literary skill. The present book deals with the duty of a wife separated from her husband and in love with another man. Her problem is whether she should divorce her husband and marry her lover, or return to her husband on account of his need of her. The author has done careful work in his handling of the problem.

Dr. Mitchell is in the front rank of American novelists, and this study of a Pennsylvania village for the decade before and the period of the Civil War is a contribution to American literature. Her mother, Lois Montgomery, however, has eloped with Jack Holton, in Phyllis's infancy, but returns to her native town, as does her companion in evil, Jack Holton—when Phyllis is about of age and in love with Fred Holton, Jack's nephew. The scandal is the dark part of the book. The rest is delightful.

NATIONAL HEADQUARTERS, BOY SCOUTS OF AMERICA

The Fifth Avenue Building, 200 Fifth Avenue
New York City

July 31st, 1913.

To the Public: —

In the execution of its purpose to give educational value and moral worth to the recreational activities of the boyhood of America, the leaders of the Boy Scout Movement quickly learned that to effectively carry out its programme, the boy must be influenced, not only in his out-of-door life, but also in the diversions of his other leisure moments. It is at such times that the boy is captured by the tales of daring enterprises and adventurous good times. What now is needful is not that his taste should be thwarted but trained. There should constantly be presented to him the books the boy likes best, yet always the books that will be best for the boy. As a matter of fact, however, the boy's taste is being constantly vitiated and exploited by the great mass of cheap juvenile literature.

To help anxiously concerned parents and educators to meet this grave peril, the Library Commission of the Boy Scouts of America has been organized. Every Boy's Library is the result of their labors. All the books chosen have been approved by them. The Commission is composed of the following members: George F. Bowerman, Librarian, Public Library of the District of Columbia, Washington, D.C.; Harrison W. Graver, Librarian, Carnegie Library of Pittsburgh, Pa.; Claude G. Leland, Superintendent, Bureau of Libraries, Board of Education, New York City; Edward F. Stevens, Librarian, Pratt Institute Free Library, Brooklyn, New York; together with the Editorial Board of our Movement, William D. Murray, George D. Pratt and Frank Presbrey, with Franklin K. Mathiews, Chief Scout Librarian, as Secretary.

In selecting the books, the Commission has chosen only such as are of interest to boys, the first twenty-five being either works of fiction or stirring stories of adventurous experiences. In later lists, books of a more serious sort will be included. It is hoped that as many as twenty-five may be added to the Library each year.

Thanks are due the several publishers who have helped to inaugurate this new department of our work. Without their co-operation in making available for popular priced editions some of the best books ever published for boys, the promotion of Every Boy's Library would have been impossible.

We wish, too, to express our heartiest gratitude to the Library Commission, who, without compensation, have placed their vast experience and immense resources at the service of our Movement.

The Commission invites suggestions as to future books to be included in the Library. Librarians, teachers, parents, and all others interested in welfare work for boys, can render a unique service by forwarding to National Headquarters lists of such books as in their judgment would be suitable for Every Boy's Library.

Signed,

JAMES E. WEST.

Chief Scout Executive.

A Selected List of Books

RECOMMENDED BY THE ONTARIO LIBRARY ASSOCIATION FOR PURCHASE BY THE
PUBLIC LIBRARIES OF THIS PROVINCE.

The following tables of book production in the leading book countries (taken from the *Publishers' Weekly*) need little comment. The great mass of new books makes very clear the necessity of some guide for our libraries in making their selections from current literature.

The present number is the fourth annual list of selections from the books of the previous year. The Editor is deeply indebted to those who have so kindly placed their expert knowledge at the disposal of our libraries.

The Editor would welcome any notice of errors or omissions in this or any of the Lists, or any suggestions towards making the List more helpful to the libraries. Address—The Editor—Selected List of Books, care Inspector of Public Libraries, Department of Education, Toronto.

The Decimal Classification is the official classification of the Department of Education of Ontario and of the Ontario Library Association. The Inspector of Public Libraries will, on application, give all necessary information in respect of this system.

For additional copies of this, or other numbers of the List, write the Inspector of Public Libraries.

Libraries are recommended to preserve these quarterly lists in bound form, or in a temporary binder, or pamphlet case.

Libraries are recommended to place these Selected Lists on the Reading Room tables, where their readers may look them over and find suggestions to be handed to the Book Committee.

The prices given in the List are, generally speaking, Canadian prices, which differ in a good many instances from British and American prices. The variations are usually slight.

CANADIAN MAGAZINES

The appended list, supplied through the Inspector of Public Libraries, gives the names of magazines published in the Provinces of Ontario, Quebec, Nova Scotia, New Brunswick, Prince Edward Island, and Manitoba, since the year 1791.—Though many of these have ceased publication, the list should be of service to the officers of Public Libraries and Historical Societies for reference.

It does not include religious, medical, educational, scientific, sporting, juvenile, college and class publications, or literary weeklies. Pains have been taken by the compiler to make the record correct, but doubtless there are a few errors.

IMPORTANT NOTICES

By the Inspector of Public Libraries

PUBLIC LIBRARIES ANNUAL REPORTS

Members of Library Boards and library officers, and library patrons, are once more "reminded that a library once having received a Government grant, and having failed to render an annual report to the Department for TWO consecutive years "effects a dissolution of the corporation, and the Minister of Education may take possession of all its books, magazines and periodicals, and dispose of the same as he may deem proper."—*See sec. 29, sub-sec. 1, Public Libraries Act, 1909.*

This all important feature is referred to on page 707, Inspector's Annual Report, 1913.

INVOICE FORMS.

Secretaries and Librarians must bear in mind that all accounts for Books, Periodicals and Newspapers must be made out and rendered to the Department *upon the forms printed for the purpose and in accordance with printed directions.* These forms can be obtained from the Inspector's office. Two copies of each of these are enclosed with the blank forms of Annual Report mailed to the Secretaries of every library at the end of each year. This requirement is plainly printed on every form. If not complied with the accounts are returned to the negligent library for correction, entailing much uncalled for work upon the office staff, and delay in allotting and paying the share of the legislative grant to which the library might be entitled. The legislative grants to which the libraries may be entitled will in future first be paid to those libraries rendering correct reports and in the order in which they are received.

LIBRARIAN'S SIGNATURE.

While there is marked improvement in rendering the Annual Reports and Invoices, the librarians in many instances still omit to sign their names at the foot of each sheet as instructed. It is the duty of the Secretary to see that all necessary signatures are appended.

DUTIES OF LIBRARY OFFICERS.

To set at rest misunderstandings that have existed among some library officials as to the respective responsibilities of the Secretary, Treasurer and Librarian in the preparation of the Annual Reports for the Department, it will be well to remember that the Secretary is responsible for all correspondence, for the purchase of books upon authority of the Board, whose book committee should always consult with the Librarian, and for the correctness of the figures entered by him from the statements prepared by the Treasurer and handed to him for embodying in his annual report, for the correctness of which receipts and expenditures as transcribed by the Secretary the Treasurer must satisfy himself.

In the case of the Librarian. This officer, under authority of the Board, should prepare the figures showing (1) number of books purchased during the year, (2) total number of books in library, and (3) number of volumes issued during the year. The Librarian must also sign the Statement of Invoices (jointly with the Secretary and Treasurer), certifying to the receipt and delivery of all books purchased during the year, also signing every separate sheet of invoice forms as sent in by the booksellers, for the receipt of and condition of which books at time of delivery the Librarian is held responsible.

THE SMALLER PUBLIC LIBRARY.

The official attention of all Library trustees and officers and the closest consideration of all library workers is asked, in respect to the article on page 709 of the Annual Report of the Inspector for 1913, headed THE SMALLER PUBLIC LIBRARY. Careful study of this will remove much misapprehension and if the facts as set forth are earnestly and faithfully pondered and resolute action taken, the position of the smaller Association Library cannot help but be improved. The Government has done more than its share. The continued existence and development of the smaller libraries and the advances it is hoped they will make in 1914 will depend chiefly upon the efforts of the members of the communities interested. If further information is needed upon any point not readily understood or not touched upon, communicate at once with the Inspector of Public Libraries.

QUALIFICATION FOR LEGISLATIVE GRANT.

No Association Library can qualify for a share of the Legislative annual grant unless it can make declaration that it has FIFTY (50 contributing) members of adult age. Pages 709 and 710 of the Inspector's Report for 1913 should be carefully studied in this connection.

NEW LIBRARIES.

Communities anxious to establish an Association Library where none has hitherto existed, or wishing to reorganize a library that has been removed from the active list, should read pages 507-510, Inspector's Report for 1911, which gives explicit information.

CONVERTING AN ASSOCIATION LIBRARY INTO A FREE LIBRARY.

Full information as to the conversion of an Association Library into a Free Library will be found on page 510, Inspector's Report for 1911, which gives complete references to the sections of the Public Libraries Act of 1909 which bear upon the subject.

AMENDMENTS TO PUBLIC LIBRARIES ACT OF 1909.

All amendments to the Public Libraries Act of 1909 that have been authorized prior to March 30th, 1913, are shown on page 795, Inspector's Report for 1913.

TRAVELLING LIBRARIES.

Public Libraries or communities (Women's or Farmers' Institutes or Study Clubs, even individual students) desiring the loan of a free Travelling Library, or a special collection of books, should write to the Inspector for a printed form of application. See pages 522-536, Inspector's Report for 1911.

TECHNICAL LIBRARIES.

The Board of Management of a Library in any town in which industries are located can obtain the loan of a Travelling Library of Technical Books for the special use of the resident artisans, relating to their daily vocational work, after filing a list of local industries with the Inspector.

PERIOD OF LOAN.

All Travelling Libraries are loaned for a period of three months, renewable by arrangement upon application.

CLASSIFYING AND CATALOGUING.

Tables showing the approximate cost of classifying the books in Libraries under the Dewey Decimal System and for installing a card system of cataloguing will be mailed on application. This applies to those Libraries requiring the services of the Departmental Cataloguer, whose services are provided by the Minister of Education, by arrangement with the Inspector, free of cost to the Public Library.

LIBRARIES UNABLE TO EXIST.

Any Library that has at any time received a Government grant, and has subsequently been compelled to close, must at once report the circumstance to the Department, and ask for instructions as to the disposal of its books, magazines, and periodicals, the disposition of which under the Library Act is vested in the Minister of Education.

SUMMER LIBRARY SCHOOL.

The Minister of Education has provided for the holding of a Fourth session of the Ontario Library School this summer in Toronto for the instruction of Librarians and others. The session it is hoped will open the first week in June, 1914, and continue for a period of four weeks. Library workers, or those contemplating engaging in Library work, should make application for entrance to the school to the Inspector of Public Libraries, Education Department, Parliament Buildings, Toronto, not later than May the 9th. Further particulars supplied upon application.

NEW LIBRARY BUILDINGS.

Duplicate plans of all NEW Library Buildings, whether erected by a donation from the Carnegie Corporation or otherwise, must be filed with the Minister of Education before construction commences.

LIBRARY INSTITUTES.

Library Boards that neglected last year to send a delegate are again reminded that unless they arrange to send a delegate to the annual meeting of their District Library Institute this year—1914—the sum of five dollars will be deducted from their next annual grant, under section 26, sub-section 2, Public Libraries Act, 1909.

DEPARTMENTAL PUBLICATIONS.

Secretaries and Librarians are once more notified that all official publications issued by this branch of the Department relating to Library work, such as the (1) Inspector's Annual Reports, the (2) Annual Reports of the Ontario Library Association, the (3) Quarterly Selected Lists of Books, must be kept by the Librarian for ready use for the members of the Board, the officers of the Library and its patrons—*and be bound and preserved for reference purposes.*

ONTARIO LIBRARY ASSOCIATION.

The Annual Meeting of the Ontario Library Association will be held as usual on Easter Monday and Tuesday, which days fall this year (1914) on April 13th and 14th. The meeting will be held in the Reference Library, College Street, Toronto, Mr. W. F. Moore, Dundas, Ont., President, and Dr. E. A. Hardy, 81 Collier Street, Toronto, Secretary. A practical and admirable programme has been prepared, the outside speaker being Mr. M. S. Dudgeon, Secretary Wisconsin Free Library Commission, Madison. It is most important that every Public Library Board in Ontario should send a representative. Every library and every library worker should affiliate

if they have not already done so. In answer to many enquiries, I would state that while membership in the O. L. A. by any Public Library is not compulsory, being left entirely to the sense of the "fitness of things" by a Library Board, it is obviously "good business" to be placed on the roll of membership, as the subscription is merely a trifle, and in view of what the O. L. A. has done and is doing in the general interests of the library workers of the Province, the Association deserves all the practical support possible. Come, then, to this meeting, not only to listen and learn, but to take an active part in its important deliberations and round-table conferences.

AMERICAN LIBRARY ASSOCIATION.

Annual Meeting at Washington, D.C., 1914.

The following letter recently received from Mr. Geo. B. Utley, Secretary of the American Library Association, 78 E. Washington Street, Chicago, calls for the most favorable consideration of every library worker in this Province:

"Before this you have, probably learned that the next meeting of the American Library Association will be held in Washington, D.C., May 25 to 30. I am quite anxious that a large number of Canadian librarians should attend this Washington meeting and that the meeting may be to Canadian librarians in the nature of a visit to our national capital in return to our visit to your national capital in 1912. I do not know whether you have a Bulletin or any printed agency for extending this desire to the Librarians of Ontario or not, but I shall be very glad to have you, in whatever way you can, spread this sentiment throughout your Province, and for that matter to the other parts of Canada as well. It is the intention of the Programme Committee to lighten the programme so as to give sufficient time for delegates to visit the many libraries and other educational features of Washington."

WALTER R. NURSEY,

Inspector of Public Libraries.

Department of Education, Parliament Buildings, Toronto.

LIBRARY ASSOCIATION OF THE UNITED KINGDOM

President : Right Hon. The Earl of Malmesbury, D.L., M.A., C.A.

Chairman of Council: H. R. Tedder, F.S.A.

Honorary Secretary : L. Stanley Jast.

ANNUAL MEETING AT OXFORD, 1914

The next Annual Meeting of the Library Association will be held at Oxford, by the invitation of the Curators of the Bodleian Library, and the Mayor and Corporation of the City, from Monday, August 31st, to Friday, Sept. 4th, 1914. The Vice-Chancellor of the University is *ex officio* chairman of the Board of Curators, and the Mayor of the City is Chairman of the City Library Committee.

As it is expected that there will be a large gathering of the Members of the American Library Association and also of Canadian Librarians, an endeavour will be made to give a kind of international tone to the meeting, and to arrange for papers and discussions on subjects of wider and more general interest than usual.

The following are among the subjects which may be placed on the programme. In each case a member and a visitor will be invited to begin the debate, which will then be open for general discussion:—

- The place of the Library in a University.
- The legitimate field of the Public Municipal Library.
- The duties of a Library Committee-man or Trustee.
- Modern influences antagonistic to the reading of books.
- Principles of book selection and book rejection.

The following may be the subjects of special papers:—

- The development of the Library Association since the first annual meeting at Oxford in 1878.
- Modern methods of accelerating the supply of books to readers.
- A history of the Title-page (with lantern slides, and an exhibition in the Bodleian Picture Gallery).
- The historical extension of the Bodleian buildings (with lantern slides).
- Oxford in Literature.
- National Libraries for the Blind.
- Recent developments in Library planning.

The general scheme of the meeting (subject to alteration) is that papers will be read at the morning sessions, excursions to the Bodleian Library, College Libraries, the City Library, the Castle (built by the first Norman Governor of Oxford), the Cathedral, the Colleges, Blenheim Palace (the seat of the Duke of Marlborough), Ifley (with its fine Norman Church), and Nuneham (the seat of the Rt. Hon. L. Harcourt, M.P.)—the last two reached by river—and other places are contemplated for the afternoons; while a reception by the University and City authorities, a *Conversazione* in the Ashmolean Museum, the Associated Dinner, and one or more lectures on Oxford may be arranged for the evenings.

Lists of Hotels and Lodging Houses, with prices, will be issued in due course. It is hoped that the Colleges will find themselves able to take in some at least of the guests from abroad.

Further details will be published in ample time, but the Council and Local Committee desire to take the earliest opportunity of extending a most cordial invitation and welcome to their brothers and colleagues across the seas. Intimation of intention to be present should be sent in as early as possible, using the attached form for that purpose, so that full particulars may be addressed in good time to those who expect to attend the meeting.

On this occasion Librarians from the United States of America, the Dominions of Canada and Australia, the Union of South Africa, India and the Continent of Europe, are invited to attend without the payment of any subscription. Residents in the United Kingdom, not already fellows or members, may become local members on payment of the subscription of one guinea.

Letters and other communications in regard to attendance, accommodation, and local arrangements and excursions, should be addressed to the Librarian, Bodleian Library, Oxford, or to the Librarian, City Library, Town Hall, Oxford.

Letters on subjects and papers in the programme, should be addressed to the Honorary Secretary of the Publications Committee (HENRY BOND), or to the Honorary Secretary (L. STANLEY JAST), at the Headquarters of the Association, Caxton Hall, Westminster, S.W.

December 10th, 1913.

Detach and forward to Librarian, Bodleian Library, Oxford.

A Selected List of Books

RECOMMENDED BY THE ONTARIO LIBRARY ASSOCIATION FOR PURCHASE BY THE PUBLIC LIBRARIES OF THIS PROVINCE.

This number of the Selected List of Books contains suggested titles from the publications of the first half of 1914. There is a general agreement of opinion that 1914 has not proved, up to the present, more than an average year, in either the quantity or the quality of the books produced.

It must always be remembered that parts II. and IV. of the Selected Lists are suggestions rather than recommendations. Part I contains the annual lists of the recommended books of the previous year as selected by experts in various departments.

At the request of the Inspector of Public Libraries the Editor has marked with an asterisk a few books that are specially recommended. This has been done to assist the Book Committees of the smaller libraries which have only a few dollars for new books. A few books have been marked with a double asterisk as a specially select list.

The Editor would welcome any notice of errors or omissions in this or any of the Lists, or any suggestions towards making the List more helpful to the libraries. Address—The Editor—Selected List of Books, care Inspector of Public Libraries, Department of Education, Toronto.

The Decimal Classification is the official classification of the Department of Education of Ontario and of the Ontario Library Association. The Inspector of Public Libraries will, on application, give all necessary information in respect of this system.

For additional copies of this, or other numbers of the List, write the Inspector of Public Libraries.

Libraries should preserve these quarterly lists in bound form, or in a temporary binder, or pamphlet case.

Libraries are recommended to place these Selected Lists on the Reading Room tables, where their readers may look them over and find suggestions to be handed in to the Book Committee. A suggestion book or pad of suggestion slips should be conveniently placed.

The prices given in the List are, generally speaking, Canadian prices, which differ in a good many instances from British and American prices. The variations are usually slight.

William Warren Bishop, the Superintendent of the Reading Room, Library of Congress, has just published a "Practical Handbook of Modern Library Cataloguing" (Baltimore: Williams & Wilkins, \$1.00).

"A manual of the American practice of cataloguing, based on the use of printed cards from the Library of Congress, but including also a full treatment of the making of a card catalogue on modern principles independently of the printed cards. Not a code of cataloguing rules, but a treatise on the practical management of a cataloguing department. Prepared primarily for library school students and for librarians of the smaller and the specialized libraries. The book takes up in detail all problems of administration and organization which have to be met in cataloguing and gives information as to different ways of treating them."—Publishers' note.

The Cambridge Manuals of Science and Literature have added the following volumes to this fine series: Kirkaldy, A. W., "Economics and Syndicalism"; Fortescue, J. W., "Military History"; Cantrill, T. C., "Coal Mining"; Sampson, R. A., "The Sun"; Leyland, John, "The Royal Navy: Its Influence in English History and in the Growth of Empire"; Procter, H. R., "The Making of Leather." Toronto; Dent (Cambridge Univ. Press), 30c. each.

The Oxford University Press are issuing a series of valuable records of the East India Company under the titles "The English Factories in India" and "The Court Minutes of the East India Company." R., "Central and South America"; Sichel, Edith, "The Renaissance"; Charles, R. H., "Religious Development between the Old and the New Testaments"; Robertson, J. M., "Elizabethan Literature." "The Wayfarers' Library embraces all that is healthy, clean and good in the lighter field of modern literature, ranging from works of pure romance to the best collective essays of the day. The first issue consists of 100 volumes, to be published at the rate of twelve per month." About fifty volumes of this attractive collection of the best in recent literature are now in print at 25c. a volume. This series is supplementary to Everyman's Library and both "Everyman's" and "The Wayfarers'" are a boon to our libraries, enabling the small libraries especially to stock up with standard and recent literature at a very small cost. Toronto: J. M. Dent & Co.

"An Economic History of Russia," by Prof. James Mavor, Ph.D., of the University of Toronto, is a work of unusual interest and value. Many years of close study of Russian life and history have placed Prof. Mavor in the front rank of students of Russia. A personal acquaintance with Tolstoi, Kropotkin and many other Russians of importance in both official and non-official classes, and repeated visits to Russia, including the Trans-Siberian tour, have aided the author in producing a monumental work, which has been recently reviewed by the *London Times* as an outstanding work of high importance. It is a timely and authoritative work which should be in all our larger public libraries. Public-spirited citizens might be induced to place this along with the recent memoirs of Cartwright and Tupper on the shelves of libraries unable to purchase these books out of regular funds. Toronto: J. M. Dent, 2 vols., \$7.50.

CANADIAN MAGAZINES.

The appended list, supplied through the Inspector of Public Libraries, gives the names of magazines published in the Provinces of Ontario, Quebec, Nova Scotia, New Brunswick, Prince Edward Island, and Manitoba, since the year 1791.—Though many of these have ceased publication, the list should be of service to the officers of Public Libraries and Historical Societies for reference.

It does not include religious, medical, educational, scientific, sporting, juvenile, college and class publications, or literary weeklies. Pains have been taken by the compiler to make the record correct, but doubtless there are a few errors.

IMPORTANT MEMORANDUM

Relating to the Rendering of Public Library Annual Reports

for the

Guidance of Members of the Boards of Management and
Officers of Public Libraries.

Your especial attention is again directed to the neglect of many library officials who fail to comply with the well-known requirements of the Public Library Act, the Regulations, and other printed instructions relating to the rendering of Annual Reports and preparation of accompanying invoices. All such invoices must be entered separately with names of the dealers supplying the articles on the "Statement of Invoices," and numbered consecutively.

The library year runs concurrently with the calendar year. That is from January 1st to December 31st.

The Annual Government Grant to any library is allotted only upon the amounts expended by the library during that calendar year. That is during the twelve month period upon which every library is called upon to report, which—under the Act—it must do before the 15th day of February of the next succeeding year. *No expenditure can be taken into consideration if it represents payment for articles not received and not paid for during that library year reported upon.*

Subscriptions for Magazines, Periodicals and Newspapers should, therefore, commence with January 1st and end with December 31st of the same year. But, whether subscriptions are for the twelve months or only for a part of that year, the period subscribed for must not include any portion of the previous year, nor any portion of the next following year.

All such accounts must be rendered by the Bookseller or News Agent, upon the printed blank Invoice forms issued by the Department, "Blue" for Adult Non-Fiction, "Red" for Adult Fiction, "White" for all Juvenile books, and "Green" for magazines, etc., which forms can be obtained upon application to the Inspector's office.

In the case of expenditure on account of *Book Binding* during the year, the Invoices must show the price of binding per volume and give the number of books bound, showing Non-Fiction and Fiction separately. Nothing can be paid for binding periodicals, etc.

In respect to expenditures on account of Classifying and Cataloguing, only payments for goods purchased for the purpose of installing the Dewey Decimal system of classification and the necessary Card Catalogue Index—approximate estimates of cost of which can be obtained from the Department—and which have been paid for by the library during the year that this system is introduced by the Official Cataloguer—can be recognized. The cost of "*material*" only can be considered. Nothing can be paid for "*services*," nor on account of any expense incurred in introducing any other system of classification. Nor can anything be paid on account of *printed Catalogues*. Nothing can be paid on account of an *Accession Book* which is part of the regular equipment of every library, nor can anything be allowed on account of Card Cabinets or any other similar furniture.

While the official cataloguer may be authorized to introduce a "Charging System," the cost of materials needed for this purpose must be borne by the library interested. No government aid can be granted on this, the cost of the Circulation of books being a part of the regular annual expense incurred by all libraries, no matter what method of Cataloguing may be followed.

No Books or Magazines, etc., can be given away or sold without departmental consent. The proceeds from all sales on this account must be expended on either Books or Magazines as the case may be.

Insurance must be carried on all Books, Magazines, and Newspapers, and the amount of Insurances and date of premiums paid must be entered each year in the space set apart for the purpose under paragraph 3, page 3, of the printed blank forms of Annual Reports.

In all cases where the signature of a female library officer is required the prefix "Mrs." or "Miss" is necessary.

These business requirements under the Act, though in force for several years, have been either wholly or in part ignored by many Library Boards and their officers. If library officials would take the trouble to read the Inspector's annual reports and other printed instructions, they would not have to plead ignorance. Read carefully these printed Annual Reports of the Inspector of Public Libraries; read the Public Libraries Act; also the extracts from this Act and other information printed on the blank forms of your Annual Reports; read the headings of all invoice forms, and the instructions that appear from time to time in certain issues of the quarterly "Selected Lists of Books"—printed especially for your information; then fill in your Reports correctly and save much letter writing, delay in paying you your annual grants, and time and labor to all concerned.

Library Boards failing to send a delegate to their district Library Institute after due notification are again reminded that a deduction of \$5.00 will be made from the next Government grant that may be payable to their library. These Institutes are held at great expense by the Government for the special purpose of imparting information, instructions and advice to library officers and members of Boards, and those who neglect to take advantage of the privilege and share the benefits are subject to the provisions of Subsection 2, Sec. 26 of the Act. Copies of the Public Libraries Act of 1909 can be obtained from the Inspector of Public Libraries, Department of Education, Toronto.

NOTE.—If any additional information or particulars relating to Public library work in Ontario not referred to in the preceding paragraphs are needed by anyone concerned, the Inspector of Public Libraries should be communicated with direct, as experience has proved that non-official advice, however well intentioned, has sometimes been inaccurate.

NOTE.—This quarterly publication is issued by and circulated at the expense of the Department of Education of the Province of Ontario.

A Selected List of Books

RECOMMENDED BY THE ONTARIO LIBRARY ASSOCIATION FOR PURCHASE BY THE PUBLIC LIBRARIES OF THIS PROVINCE.

The present number contains selections from the books of 1914 issued from July to December. Limitations of time and space prevent the usual annotations in this number, but it is the intention to annotate as carefully as possible Vol. XIV., Part I., which will contain the selections from the books of 1914 recommended by experts in their various departments.

The Editor would welcome any notice of errors or omissions in this or any of the Lists, or any suggestions towards making the List more helpful to the libraries. Address—The Editor—Selected List of Books, care Inspector of Public Libraries, Department of Education, Toronto.

The Decimal Classification is the official classification of the Department of Education of Ontario and of the Ontario Library Association. The Inspector of Public Libraries will, on application, give all necessary information in respect of this system.

For additional copies of this, or other numbers of the List, write the Inspector of Public Libraries.

Libraries are recommended to preserve these quarterly lists in bound form, or in a temporary binder, or pamphlet case.

Libraries are recommended to place these Selected Lists on the Reading Room tables, where their readers may look them over and find suggestions to be handed to the Book Committee. Suggestion slips should also be provided for convenience in making these suggestions.

The prices given in the List are, generally speaking, Canadian prices, which differ in a good many instances from British and American prices. The variations are usually slight.

These two annual numbers are worthy of a place on the reading room tables, where the readers may study them and not only become familiar with the books of the year, but find suggestions to be handed to the Librarian and the Book Committee. The beautiful illustrations in the Bookman are especially attractive and both contain informing reviews of many books in all departments.

IMPORTANT NOTICES—"A"

By the Inspector of Public Libraries.

PUBLIC LIBRARIES ANNUAL REPORTS

Members of Library Boards and library officers, and library patrons are again "reminded that a library once having received a Government grant, and having failed to render an annual report to the Department for TWO consecutive years" . . . "effects a dissolution of the corporation, and the Minister of Education may take possession of all its books, magazines and periodicals, and dispose of the same as he may deem proper."—*See sec. 29, sub-sec. 1, Public Libraries Act, 1909.*

This important feature is referred to on page 707, Inspector's Annual Report, 1913.

INVOICE FORMS.

Secretaries and Librarians must bear in mind, that all accounts for Books, Periodicals and Newspapers must be made out and rendered to the Department *upon the forms printed for the purpose and in accordance with printed directions.* These forms can be obtained from the Inspector's office. Two copies of each of these are enclosed with the blank forms of Annual Report mailed to the Secretaries of every library at the beginning of each year. All requirements are plainly printed on every form. If not complied with, the invoices, etc., are returned to the negligent library for correction, entailing much uncalled for work upon the office staff, and delay in allotting and paying the share of the legislative grant to which the library might be entitled. The legislative grants to which the libraries may be entitled will in future first be paid to those libraries rendering correct reports and in the order in which they are received.

LIBRARIAN'S SIGNATURE.

While there is marked improvement in rendering the Annual Reports and Invoices, the librarians in many instances still omit to sign their names at the foot of each sheet as instructed. It is the duty of the Secretary to see that all necessary signatures are appended.

DUTIES OF LIBRARY OFFICERS.

To set at rest misunderstandings that have existed among some library officials as to the respective responsibilities of the Secretary, Treasurer and Librarian of the ordinary library (if there are such separate officers) in the preparation of the Annual Reports for the Department, it will be well to remember that the Secretary is responsible for the forwarding of the Annual Report to the Inspector and for all correspondence, and in respect to the correctness of the figures entered by him from the statements prepared by the Treasurer and Librarian and handed to him for embodying in his annual report, for the correctness of which receipts and expenditures as transcribed by the Secretary the Treasurer must satisfy himself.

In the case of the Librarian. This officer, under authority of the Board, should prepare the figures showing (1) number of books purchased during the year, (2) total number of books in library, and (3) number of volumes issued during the year. The Librarian must also sign the Statement of Invoices (jointly with the Secretary and Treasurer), certifying to the receipt and delivery of all books purchased during the

year, also signing every separate sheet of invoice forms as sent in by the booksellers, for the receipt of and condition of which books at time of delivery the Librarian is held responsible. The Librarian should be consulted at all times by the Board in respect to the selection of new books, and unless there is good reason for the contrary should attend all Board meetings.

THE SMALLER PUBLIC LIBRARY.

The official attention of all Library trustees and officers and the closest consideration of all library workers is asked, in respect to the article on page 709 of the Annual Report of the Inspector for 1913, headed THE SMALLER PUBLIC LIBRARY. Careful study of this will remove much misapprehension and if the facts as set forth are earnestly and faithfully pondered and resolute action taken, the position of the smaller Association Library cannot help but be improved. The Government has done more than its share. The continued existence and development of the smaller libraries and the advances it is hoped they will make in future years will depend chiefly upon the efforts of the members of the communities interested. If further information is needed upon any point not readily understood or not touched upon, communicate at once with the Inspector of Public Libraries.

QUALIFICATION FOR LEGISLATIVE GRANT.

No Association Library can qualify for a share of the Legislative annual grant unless it can make declaration that it has FIFTY (50 contributing) members of adult age. Pages 709 and 710 of the Inspector's Report for 1913 should be carefully studied in this connection.

NEW LIBRARIES.

Communities anxious to establish an Association Library where none has hitherto existed, or wishing to reorganize a library that has been removed from the active list, should read in addition to the Public Libraries Act, pages 507-510, Inspector's Report for 1911, which gives explicit information.

CONVERTING AN ASSOCIATION LIBRARY INTO A FREE LIBRARY.

Full information as to the conversion of an Association Library into a Free Library will be found on page 510, Inspector's Report for 1911, which gives complete references to the sections of the Public Libraries Act of 1909 which bear upon the subject, and clearly explains upon what basis the Government grant is allotted and paid. Secretaries before writing to the Inspector for information should first refer to the Inspector's Annual Reports in their possession.

AMENDMENTS TO PUBLIC LIBRARIES ACT OF 1909.

All amendments to the Public Libraries Act of 1909 that have been authorized prior to March 30th, 1913, are shown on page 795, Inspector's Report for 1913.

TRAVELLING LIBRARIES.

Public Libraries or communities (Women's or Farmers' Institutes or Study Clubs, even individual students) desiring the loan of a free Travelling Library, or a special collection of books, should write to the Inspector for a printed form of application. See pages 522-536, Inspector's Report for 1911.

TECHNICAL LIBRARIES.

The Board of Management of a Library in any town in which industries are located can obtain the loan of a Travelling Library of Technical Books for the special use of the resident artisans, relating to their daily vocational work, after filing a list of local industries with the Inspector.

PERIOD OF LOAN.

All Travelling Libraries are loaned for a period of three months, renewable by arrangement upon application.

CLASSIFYING AND CATALOGUING.

Tables showing the approximate cost of classifying the books in Libraries under the Dewey Decimal System and for installing a card system of cataloguing will be mailed on application. This applies to those Libraries requiring the services of the Departmental Cataloguer, whose services are provided by the Minister of Education, by arrangement with the Inspector, free of cost to the Public Library.

LIBRARIES UNABLE TO EXIST.

Any Library that has at any time received a Government grant, and has subsequently been compelled to close, must at once report the circumstance to the Department, and ask for instructions as to the disposal of its books, magazines, and periodicals, the disposition of which under the Library Act is vested in the Minister of Education.

SUMMER LIBRARY SCHOOL.

The Minister of Education has provided for the holding of a Summer Library School in Toronto for the instruction of Librarians and others. The session opens about the last week in May, and continues for a period of four weeks. Library workers, or those contemplating engaging in Library work, should make application for entrance to the School to the Inspector of Public Libraries, Education Department, Parliament Buildings, Toronto, not later than the first of May. Further particulars supplied upon application.

NEW LIBRARY BUILDINGS.

Duplicate plans of all NEW Library Buildings, whether erected by a donation from the Carnegie Corporation or from any other person or persons, must be filed by the Library Board interested with the Minister of Education before construction commences. These plans must not be blue-prints, but black and white drawings.

LIBRARY INSTITUTES.

Library Boards that neglect to send a delegate to the local district Institute are again reminded that unless they arrange to send a delegate to the annual meeting of their District Library Institute, the sum of five dollars will be deducted from their next annual grant, under section 26, sub-section 2, Public Libraries Act. 1909.

DEPARTMENTAL PUBLICATIONS.

Secretaries and Librarians are once more notified that all official publications issued by this branch of the Department relating to Library work, such as the (1) Inspector's Annual Reports, the (2) Annual Reports of the Ontario Library Association, the (3) Quarterly Selected Lists of Books, must be kept by the Librarian for ready use for the members of the Board, the officers of the Library and its patrons—and be bound and preserved for reference purposes. The editions are limited and most difficult to duplicate.

ONTARIO LIBRARY ASSOCIATION.

The Annual Meeting of the Ontario Library Association is held on Easter Monday and Tuesday, in Toronto. Dr. E. A. Hardy, 81 Collier Street, Toronto, is the Secretary. Practical programmes are prepared. It is important that every Public Library Board in Ontario should send a representative. Every library and every library worker should affiliate, if they have not already done so, with this Association. The fee is nominal. In answer to many enquiries, I would state that while membership in the O. L. A. by any Public Library is not compulsory, being left entirely to the judgment of a Library Board, it is obviously "good business" to be placed on the roll of membership. In view of what the O. L. A. has done and is doing in the general interests of the library workers of the Province, the Association deserves all the practical support possible.

WALTER R. NURSEY,
Inspector of Public Libraries.

Department of Education, Parliament Buildings, Toronto.
January, 1915.

IMPORTANT MEMORANDUM "B"

Relating to the Rendering of Public Library Annual Reports for the Guidance of Members of the Boards of Management and Officers of Public Libraries.

Your especial attention is again directed to the neglect of many library officials who fail to comply with the well-known requirements of the Public Library Act, the Regulations, and other printed instructions relating to the rendering of Annual Reports and preparation of accompanying invoices. All such invoices must be entered separately with names of the dealers supplying the articles on the "Statement of Invoices," and numbered consecutively.

The library year runs concurrently with the calendar year. That is from January 1st to December 31st.

The Annual Government Grant to any library is allotted only upon the amounts expended by the library during that calendar year. That is during the twelve months period upon which every library is called upon to report, which—under the Act—it must do before the 15th day of February of the next succeeding year. *No expenditure can be taken into consideration if it represents payment for articles not received and not paid for during that library year reported upon.*

Subscriptions for Magazines, Periodicals and Newspapers should, therefore, commence with January 1st and end with December 31st of the same year. But, whether subscriptions are for the twelve months or only for a part of that year, the period subscribed for must not include any portion of the previous year, nor any portion of the next following year.

All such accounts must be rendered by the Bookseller or News Agent, upon the printed blank Invoice forms issued by the Department, "Blue" for Adult Non-Fiction, "Red" for Adult Fiction, "White" for all Juvenile books, and "Green" for magazines, etc., which forms can be obtained upon application to the Inspector's office.

In the case of expenditure on account of *Book Binding* during the year, the Invoices must show the price of binding per volume and give the number of books bound, showing Non-Fiction and Fiction separately. Nothing can be paid for binding periodicals, etc.

In respect to expenditures on account of *Classifying and Cataloguing*, only payments for goods purchased for the purpose of installing the Dewey Decimal system of classification and the necessary Card Catalogue Index—approximate estimates of cost of which can be obtained from the Department—and which have been paid for by the library during the year that this system is introduced by the Official Cataloguer—can be recognized. The cost of "*material only*" can be considered. Nothing can be paid for "*services*," nor on account of any expense incurred in introducing any other system of classification. Nor can anything be paid on account of an *Accession Book* which is part of the regular equipment of every library, nor can anything be allowed on account of Card Cabinets or any other similar furniture.

While the official cataloguer may be authorized to introduce a "*Charging System*," the cost of materials needed for this purpose must be borne by the library interested. No Government aid can be granted on this, the cost of the Circulation of books being a part of the regular annual expense incurred by all libraries, no matter what method of Cataloguing may be followed.

No Books or Magazines, etc., can be given away or sold without Departmental consent. The proceeds from all sales on this account must be expended on either Books or Magazines, as the case may be.

Insurance must be carried on all Books, Magazines, and Newspapers, and the amount of Insurances and date of premiums paid must be entered each year in the space set apart for the purpose under paragraph 3, page 3, of the printed blank forms of Annual Reports.

In all cases where the signature of a female library officer is required the prefix "Mrs." or "Miss" is necessary.

These business requirements under the Act, though in force for several years, have been either wholly or in part ignored by many Library Boards and their officers. If library officials would take the trouble to read the Inspector's Annual Reports and other printed instructions, they would not have to plead ignorance. Read carefully these printed Annual Reports of the Inspector of Public Libraries; read the Public Libraries Act; also the extracts from this Act and other information printed on the blank forms of your Annual Reports; read the headings of all invoice forms, and the instructions that appear from time to time in certain issues of the quarterly "Selected List of Books"—printed especially for your information; then fill in your Reports correctly and save much letter writing, delay in paying you your annual grants, and time and labour to all concerned.

Library Boards failing to send a delegate to their District Library Institute after due notification are again reminded that a deduction of \$5.00 will be made from the next Government grant that may be payable to their library. These Institutes are held at great expense by the Government for the special purpose of imparting information instructions and advice to library officers and members of Boards, and those Library Boards who neglect to take advantage of the privilege and share the benefits are subject to the provisions of Subsection 2, Sec. 26 of the Act. Copies of the Public Libraries Act of 1909 can be obtained from the Inspector of Public Libraries, Department of Education, Toronto.

NOTE.—If any additional information or particulars relating to Public library work in Ontario not referred to in the preceding paragraphs are needed by anyone concerned, the Inspector of Public Libraries should be communicated with direct, as experience has proved that non-official advice, however well intentioned, has sometimes been inaccurate.

WALTER R. NURSEY,

Inspector of Public Libraries, Parliament Buildings, Toronto.

SPECIAL MEMO: For Chairmen of Library Boards.

For purposes of insertion in the Inspector's Annual Report, Chairmen of Library Boards are particularly requested upon receipt of this to mail to the Inspector, the names of any men or women connected in any way with their Public Library, whether officials or members of the Board, who have either volunteered or have otherwise been called upon to join any Canadian Contingent or any Military or other organization with the object of engaging in Active Service in defence of flag and country. The full names and occupations of such persons are requested, with designation of the regiment or organization with which they are now identified.

NOTE.—The following lists comprise books that are available either through the publisher, or the second-hand stores. Practically all of these books are in the larger libraries in Toronto, e.g., Legislative Library, Department of Education Library, Public Library and Ontario Historical Society Library. Certain kinds of books have been omitted, e.g., very rare books, those of local interest outside of Ontario, books that simply re-state what already appears in other books.

The principal sources for the compilation of these lists have been the catalogue of the Legislative Library, the Annual Reviews of Canadian Historical Publications, the A.L.A. Literature of American History, the card-catalogue of the Toronto Public Library, the library of the Ontario Historical Society, and the catalogues of Canadian publishers. In addition many of the entries have been made directly from the books.
